Subject: Crime Negatively Impacting North 54 Res

Hi Charlotte Peter, Manager, Bylaw Services,

My name is Carey-Lynn, I am an owner of a locally owned restaurant downtown called North54 Restaurant.

We have been dramatically impacted by the crime downtown Prince George from tent city in regards to theft, drug abuse, needles, customer and staff harassment and attached with weapons, loitering, and defecating in the back alley and front sidewalk.

Due to the crime downtown Prince George, I feel our business has suffered dramatically in numbers of our community coming and joining us for a dining experience because of the unsafe feeling of downtown. Unfortunately one of the number 1 topics of discussion at always comes up with my customers is about the crime and the shame of the state of downtown Prince George and the street life. Disheartening

We are constantly protecting our staff and customers from the unpredictable drug using homeless individuals.

Our business has experienced numerous acts of crime and choose to see actions taken in place to stop our downtown Prince George being taken over by the street people. It is discussing to see what happens on our streets between the early AM hours of the day.

I have attached a few of many pictures and videos I have recorded over the last year. Just recently we had our patio heats stolen from our patio, grateful the RCMP made an arrest but the individual is back out on the streets after less than 24 hours.

Thank you, I hope you can make a difference our upset community needs to see change.

Carey-Lynn Campioni
