Subject: Development Variance Permit Application No. VP100594 by L&M Engineering for J.A. Brink Investments Inc.

Myself and my wife are the owners of 4152 Stevens Drive and our lot is adjacent to Lots 2 and 3 of the above noted application regarding reducing setback variance from 6 meters to 3 meters. We do not have any objections to the requested variance. Thank you for requesting our input on this matter.

Brent and Stacy Bye.
