**Presentation Topic \***

The BCRC would like to introduce themselves to council as a representative of the Resource Industry in BC. More importantly we would like to refute the request that has been made to city Council on September 20th to support additional review and regulation of the proposed West Coast Olefins projects. We believe that this is a dangerous precedent to set for the city and province and can have lasting unintended consequences for industry and future projects in the region and province. It is important for council to hear both side of any such request before making a decision.
