What's in a name
Hospice Name Update

The **definition of hospice care** is compassionate comfort care (as opposed to curative care) for people facing a terminal illness with a prognosis of six months or less, based on their physician's estimate if the disease runs its course as expected.

The **definition of palliative care** is compassionate comfort care that provides relief from the symptoms and physical and mental stress of a serious or life-limiting illness. Palliative care can be pursued at diagnosis, during curative treatment and follow-up, and at the end of life
