October 27,2021

Dear Council,

We are applying for a Height Variance of 7.6m to build a shop in our backyard to park my logging truck. The height of my logging truck is 4.26m so the doors need to be a minimum of 4.5m to allow enough clearance. The closest I can get to the bylaw height and still be able to park would be 7.6 m. If variance permits, I will be building the shop on my acreage in my backyard that happens to be at the very edge of city limits. This will not impede any neighbour's view or sunlight. I have canvassed the neighbourhood and have no opposition as most owners have similar structures.

Respectfully,

Laura and Jason Schwing
