

DESIGNING A WAY TO EVALUATE SAFETY, CLEANLINESS & INCLUSION INITIATIVES IN PRINCE GEORGE

Event Journal

April 21 & May 11, 2022

Facilitated by Coeuraj

A **synopsis** of why and how
we gathered over two days
of virtual workshops

We convened participants from across Prince George over two half-day virtual workshops, building off our in-person workshops 1 and 2 in March

*This included **24 participants in Workshop 3** and **29 participants in Workshop 4** across municipal and provincial government agencies, NGO organizations, business, and peers groups.*

PARTICIPANTS

- Axis
- BC Housing
- BC Schizophrenia Society Prince George Branch
- Carrier Sekani Family Services
- Chu Cho Environmental
- City of Prince George Bylaw Services Team
- City of Prince George Downtown Economics
- City of Prince George Outreach Workers
- Community Arts Council
- Connective
- Downtown Prince George - Business & Property Owners
- First Nations Health Authority
- Homespun Refillery
- Lheidli T'enneh Band
- Ministry of Social Development and Poverty Reduction
- Northern Health
- Northern John Howard Society
- Positive Living North
- Pounds Project Society
- Prince George Chamber of Commerce
- RCMP
- Select Committee on a Clean, Safe & Inclusive Community
- YMCA of Northern BC

Our core team co-designed this journey

DESIGN TEAM

- **Charlotte Peters**, Manager Bylaw Services, City of Prince George
- **Chris Wetmore**, Coordinated Access & Assessment Manager, BC Housing
- **Christina Doll**, Workforce Development Officer, Economic Development, City of Prince George
- **Colleen Van Mook**, Executive Director, Prince George Downtown Business Improvement Association
- **Eoin Foley**, Nancy O's, Betulla Burning, Birch & Boar Restaurant/Business Owner, Restaurateur, Prince George (all downtown locations) and President of the executive board for the Prince George Downtown Business Improvement Association
- **Nicole Doucette**, Aboriginal Homelessness Team Lead, PGNAETA- Prince George Nechako Aboriginal Employment and Training Association
- **Shane DeMeyer**, Director of Specialized Services, Northern Health Authority
- Chief Superintendent **Warren Brown**, District Commander, "E" Division North District, RCMP

COEURAJ FACILITATION TEAM

- Adam Shaw
- John Hibble
- Dani Prapavessis
- Karli Ferriolo
- Elena Dudarenko
- Max Lindley-Peart
- Gina Doxtator
- Nikkie To

CORE CITY OF PRINCE GEORGE TEAM

- Bonnie Mercedes
- Chris Bone
- Sarah Brown

Based on our first workshops, we had some more specific questions about change in Prince George

Questions we are asking:

- How can we enhance safety, cleanliness, and inclusion (SCI) efforts? What do these things mean to you?
- How can we understand the impact of safety, cleanliness, and inclusion interventions and initiatives?
- What does social change mean to you? What types of change do you want to see in Prince George?
- How can we increase relationships across the system?
- How can we move from collective intent to collective action?

OBJECTIVES WORKSHOPS 3 and 4

Together, we will...

- Learn about a case study that illustrates an approach to an evaluation framework
- Focus and refine the work we've done on each theme for the problem, aspiration and solution spaces.
- Review our starting point for an evaluation framework
- Review our current change logic and make sure we are measuring the right things
- Share our perspectives on how we might prioritize within our evaluation scope
- Learn about our baseline evaluation capacity (process, data, and skills)
- Understand the remaining evaluation plan ('sprints') for this year

OUTCOMES

Together, we will...

- Gain clarity on the systemic conditions that we need to focus on for systemic change
- Refine our definition and greater alignment on the problem, aspiration and solution spaces for each theme
- Increase our capacity in systems thinking and evaluation frameworks
- Agree upon our draft evaluation framework
- Focus our change-logic
- Create a list of evaluation tools, data, and skills we have
- Develop a preliminary plan for the evaluation sprints and the work ahead

Our agenda for the two workshops built upon and refined the work from previous sessions

WORKSHOP 3

April 21 at 9:00 - 12:00

- Welcome and opening
- Check-in
- Case study
- Establishing a baseline
- Refining problem space
- Refining aspiration space
- Share
- Close

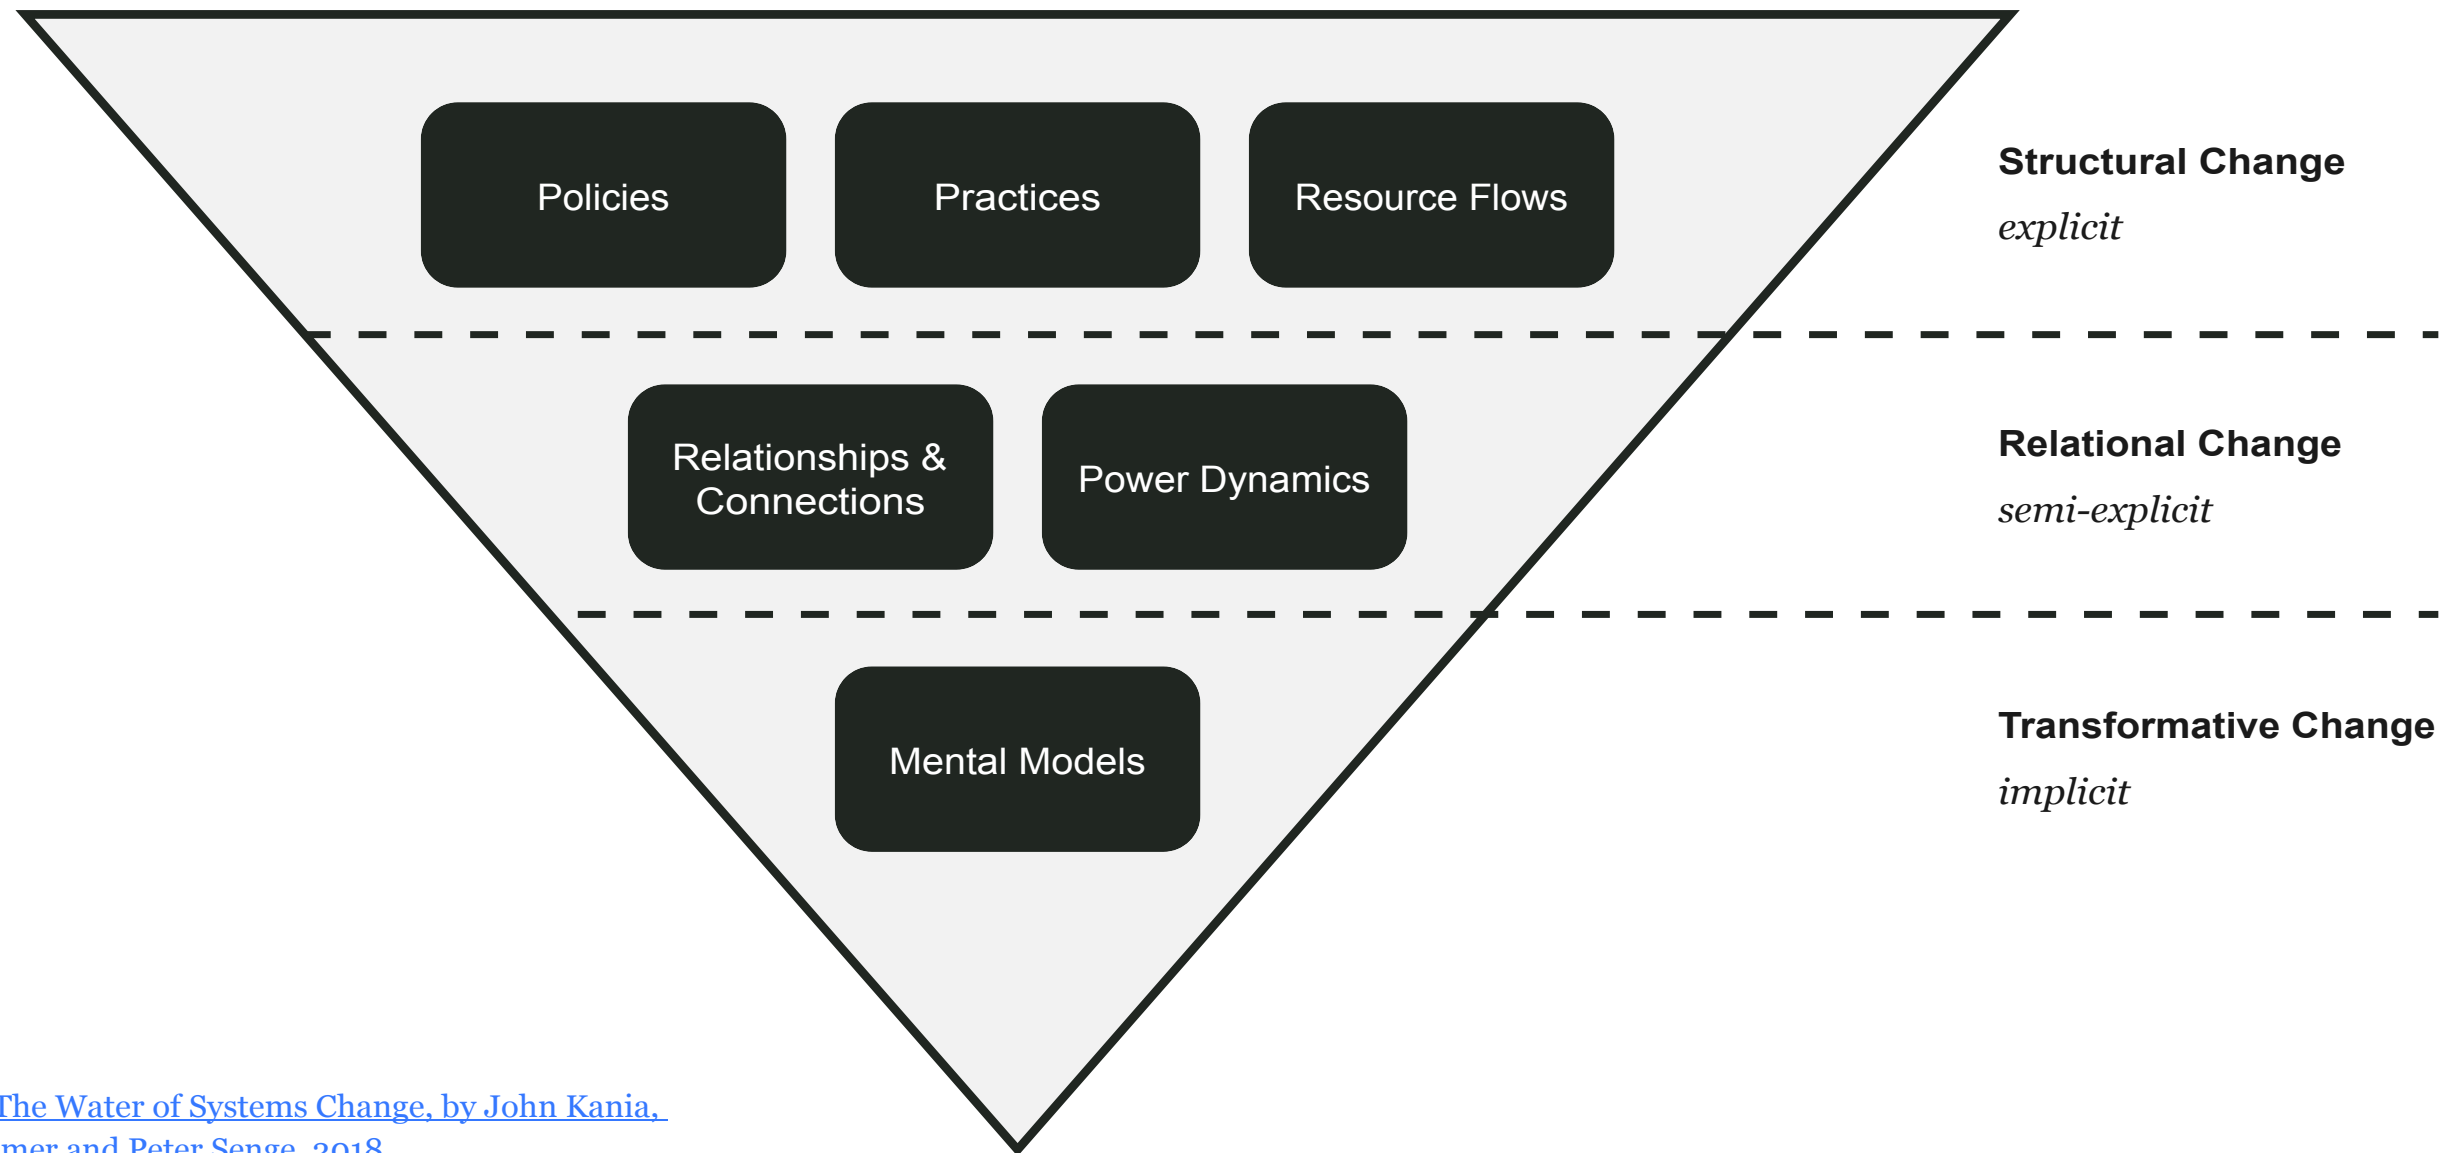

WORKSHOP 4

May 11 at 8:30 - 1:00

- Welcome and opening
- Check-in
- Refining North Star
- Prioritization
- Capacity evaluation
- Identifying actors
- Share
- Close

We explored the 6 Conditions model to determine what is holding the problem in place

Source: [The Water of Systems Change, by John Kania, Mark Kramer and Peter Senge, 2018](#)

What are the conditions that are holding the problem in place?

Policies: Government, institutional and organizational rules, regulations, and priorities that guide the entity's own and others' actions.

Practices: Espoused activities of institutions, coalitions, networks, and other entities targeted to improving social and environmental progress. Also, within the entity, the procedures, guidelines, or informal shared habits that comprise their work.

Resource Flows: How money, people, knowledge, information, and other assets such as infrastructure are allocated and distributed.

Relationships & Connections: Quality of connections and communication occurring among actors in the system, especially among those with differing histories and viewpoints.

Power Dynamics: The distribution of decision-making power, authority, and both formal and informal influence among individuals and organizations.

Mental Models: Habits of thought—deeply held beliefs and assumptions and taken-for-granted ways of operating that influence how we think, what we do, and how we talk.

Source: [The Water of Systems Change](#), by John Kania, Mark Kramer and Peter Senge, 2018

We set the stage by evaluating the state of the five themes derived from our research and work with the design team in Prince George

Participants shared their thoughts in a survey which asked, “Over the past 5-10 years in Prince George, have the circumstances for each of the following conditions gotten better or worse?”

1. Perception of safety
2. Opioids and mental health
3. Housing crisis and unsheltered peoples
4. Graffiti, garbage, needles, and biohazards
5. Downtown lacks vibrancy

Each theme has gotten worse over the last 10-15 years

Over the past 5-10 years in Prince George, have circumstances for unsheltered peoples gotten...

Over the past 5-10 years in Prince George, has the situation with opiods and mental health gotten...

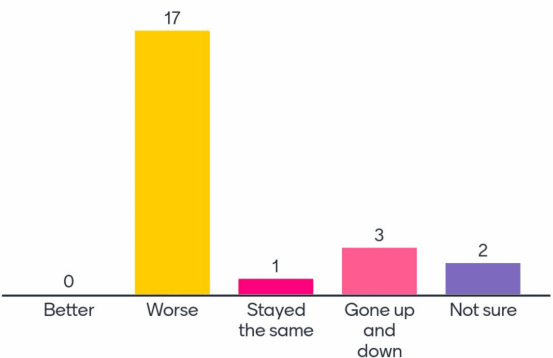

Over the past 5-10 years in Prince George, has the vibrancy in downtown gotten...

Over the past 5-10 years in Prince George, has your perception of safety gotten...

Over the past 5-10 years in Prince George, has grafitti, garbage, needles and biohazards in downtown gotten...

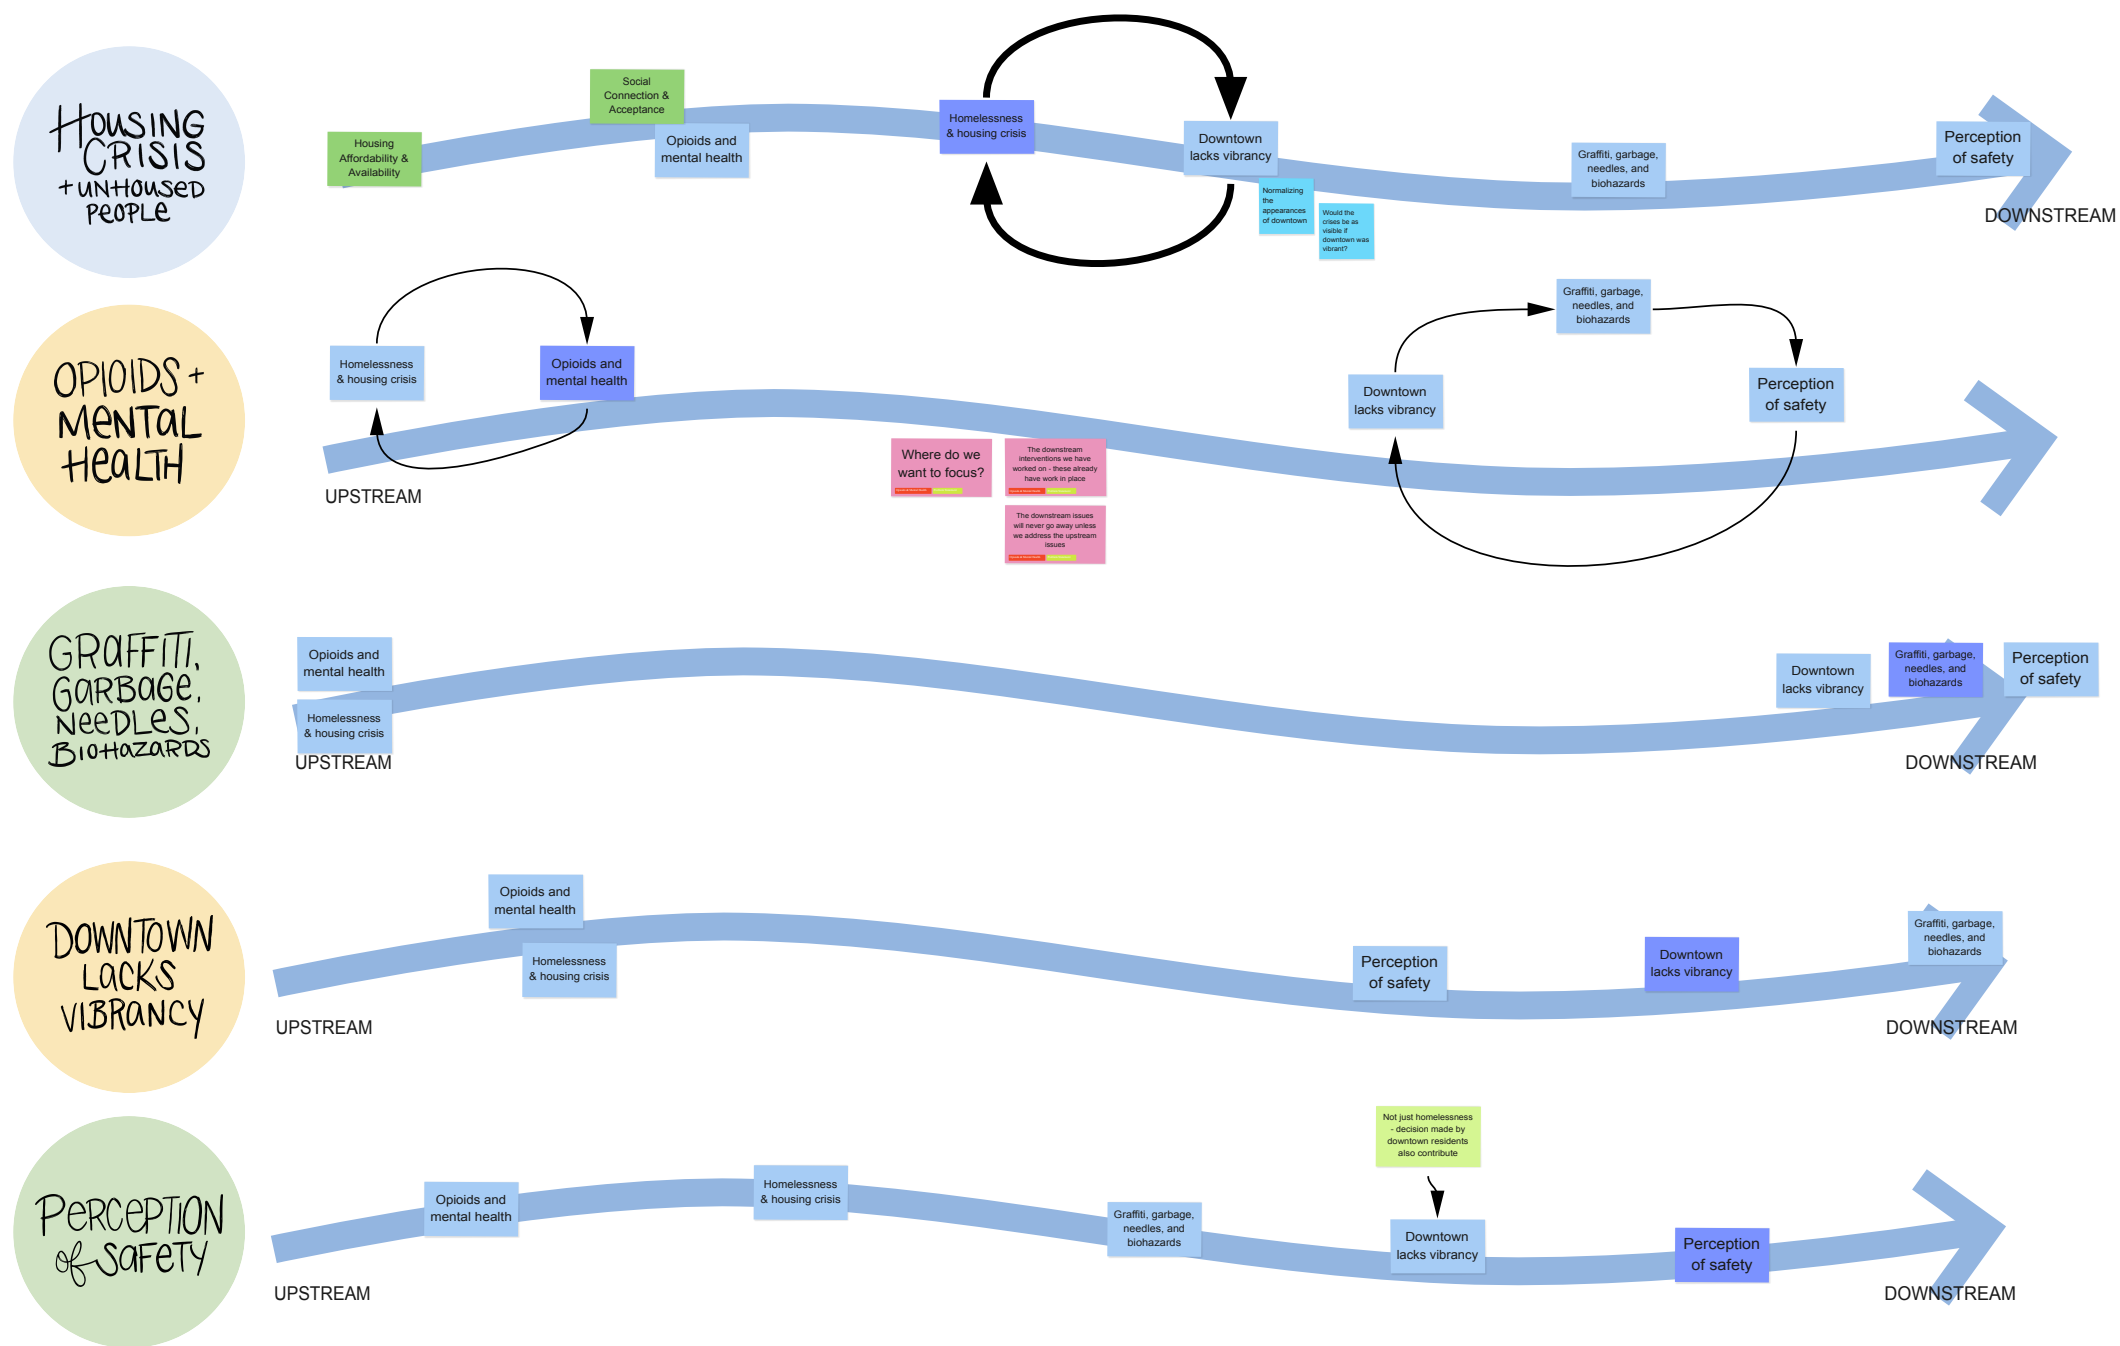

Through individual and small group work, we began by defining problems and aspirations for each of these themes

In breakout groups, participants did a deep dive into a specific challenge area, working through the following activity prompts:

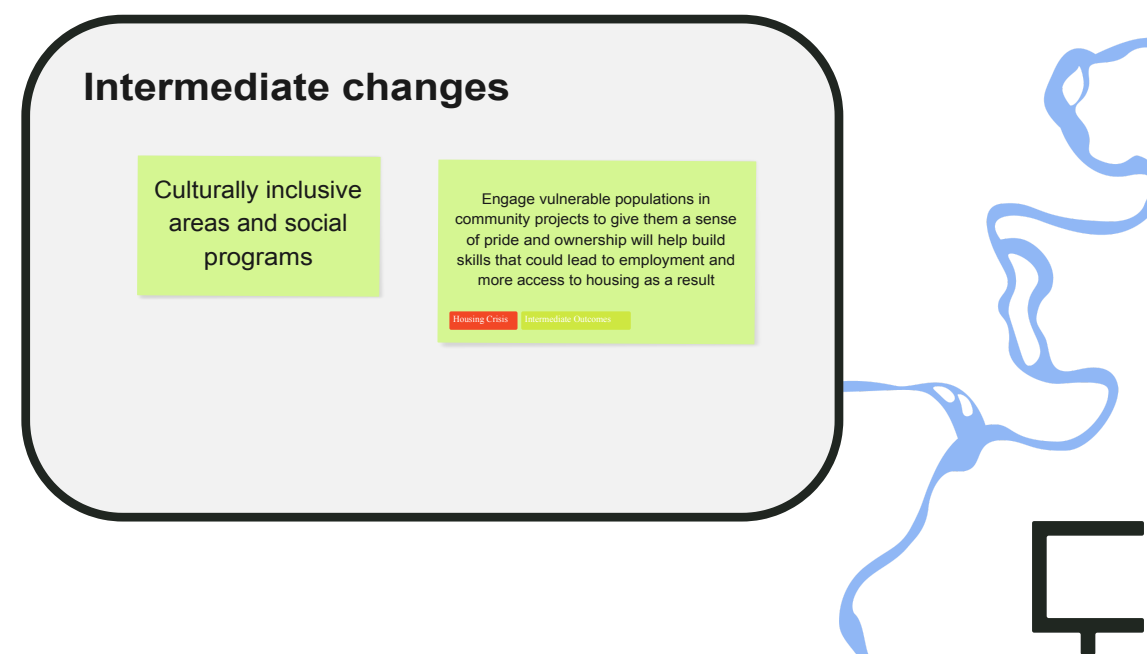

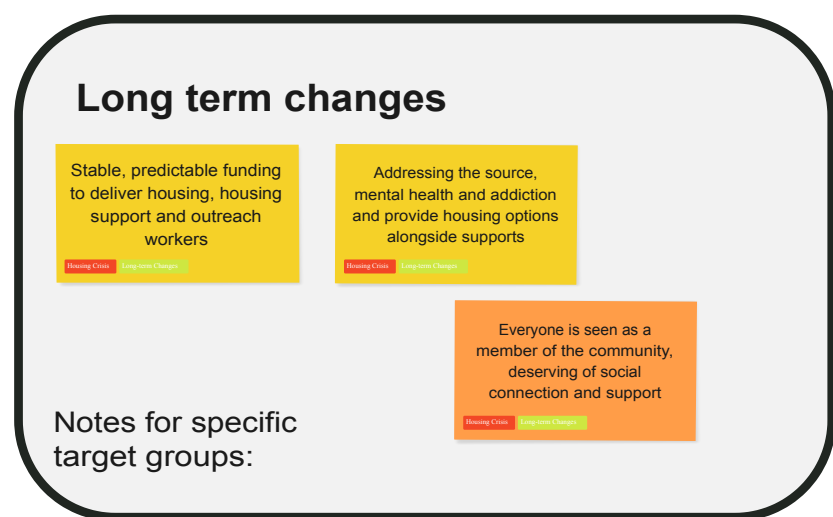

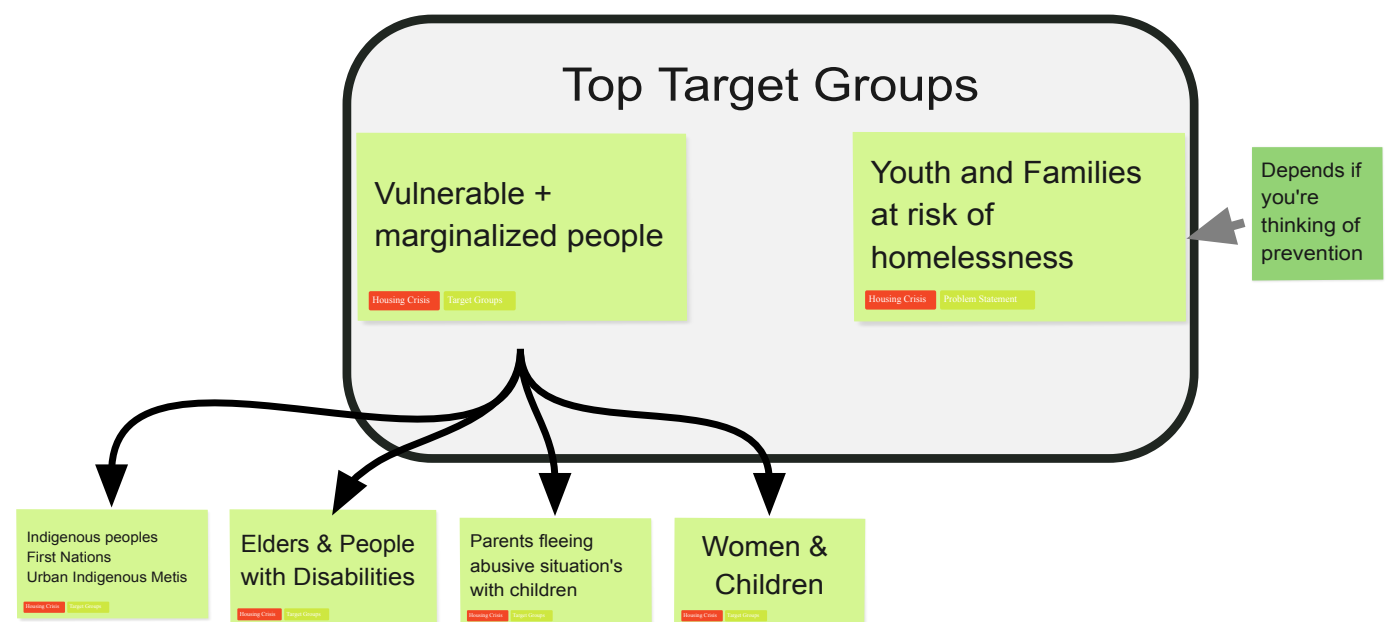

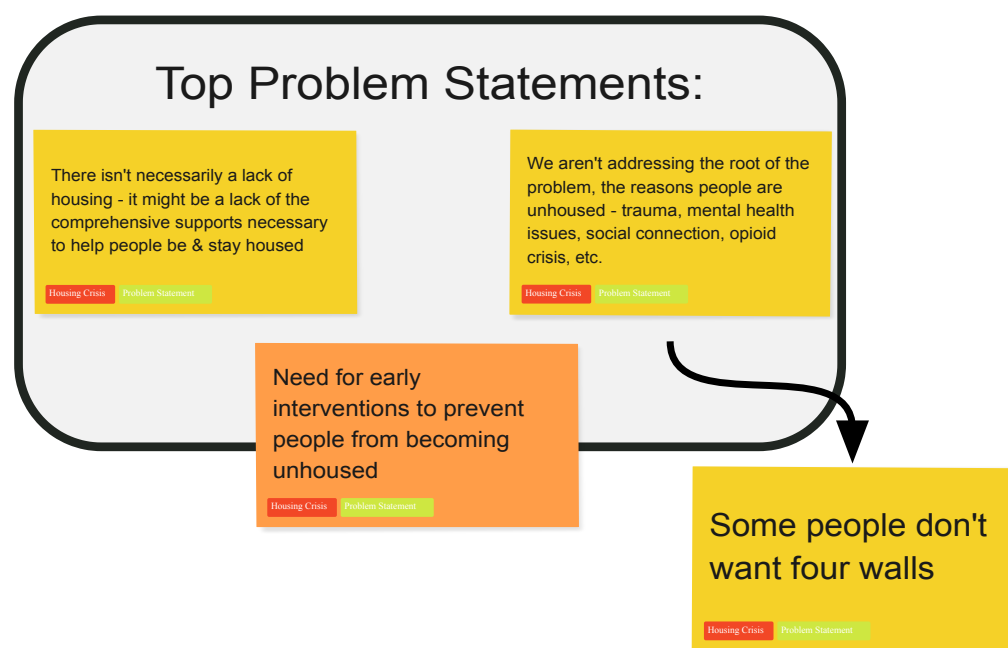

- Identify the conditions that are holding the problem in place
- Refine our problem statement and target groups
- Refine our long-term and immediate changes (outcomes)
- Map our existing interventions

Each group mapped housing and opioids and mental health as upstream issues

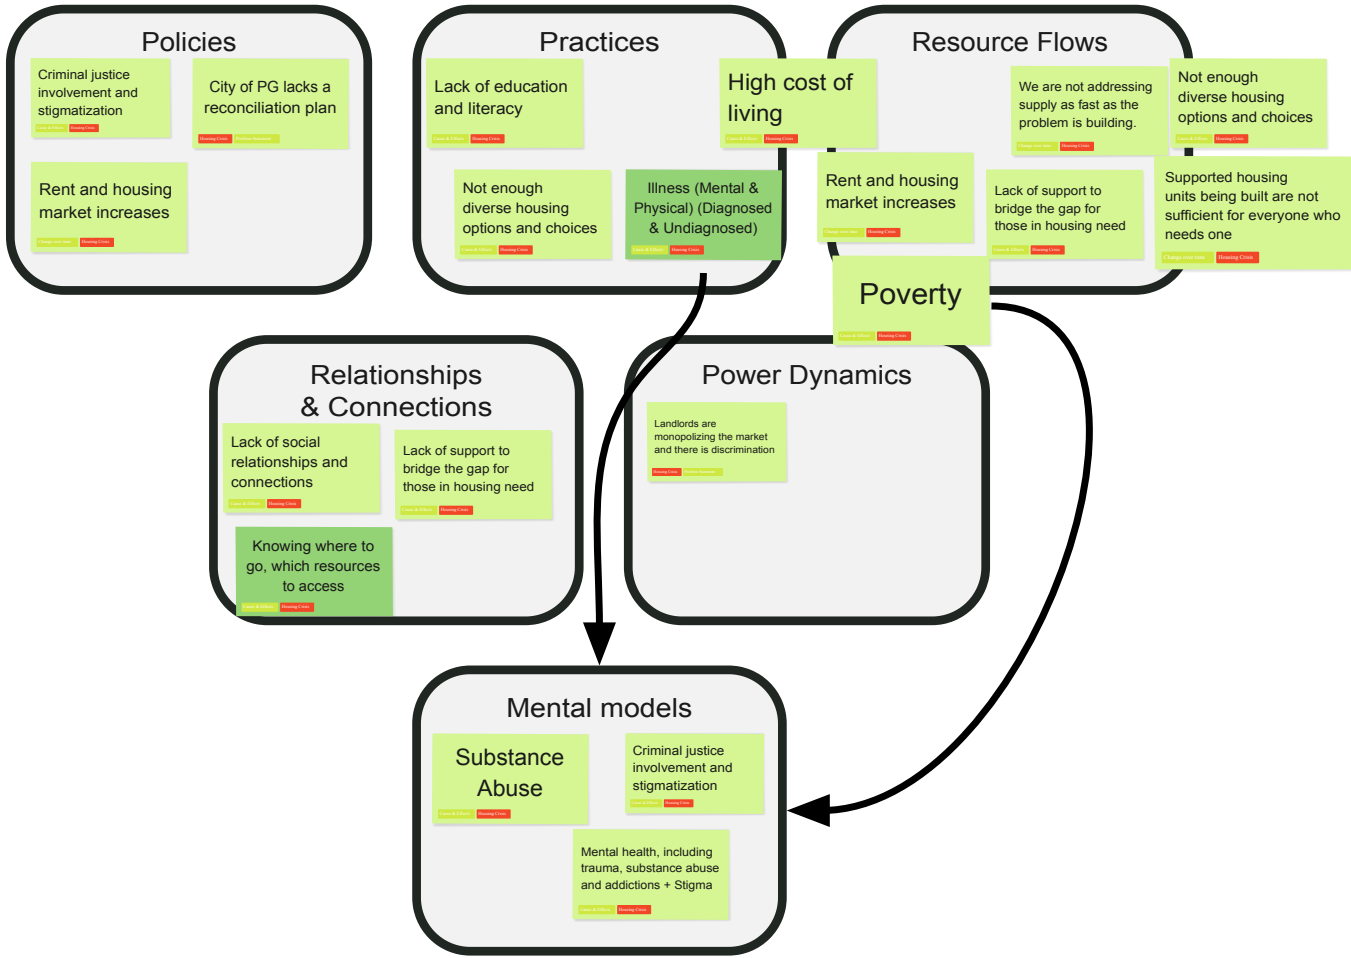

Homelessness & Housing Crisis

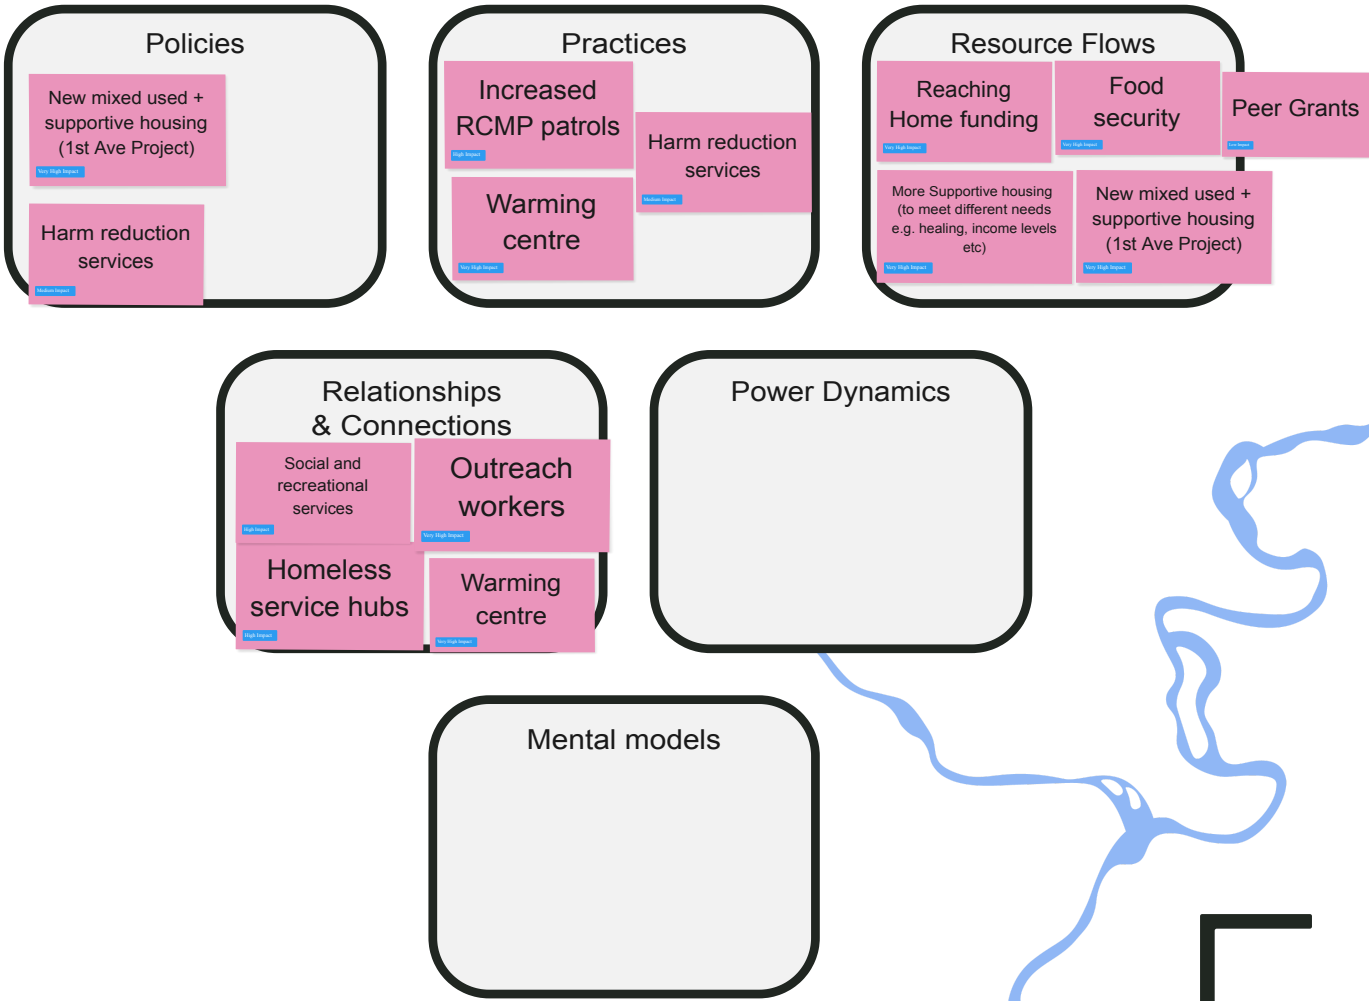

Homelessness & Housing Crisis

Identified Causes:

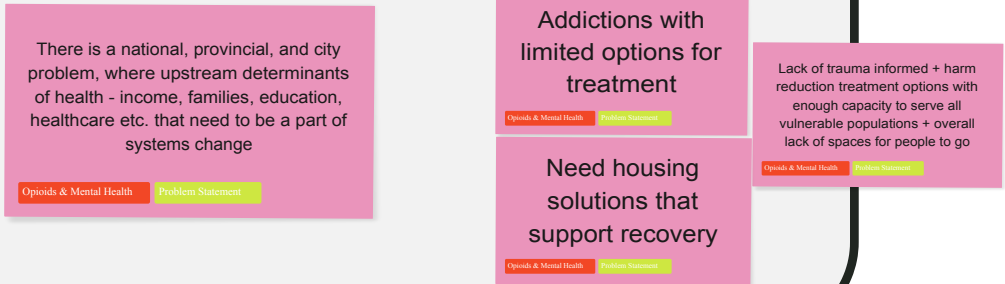

Ranked Interventions:

Opioids & Mental Health

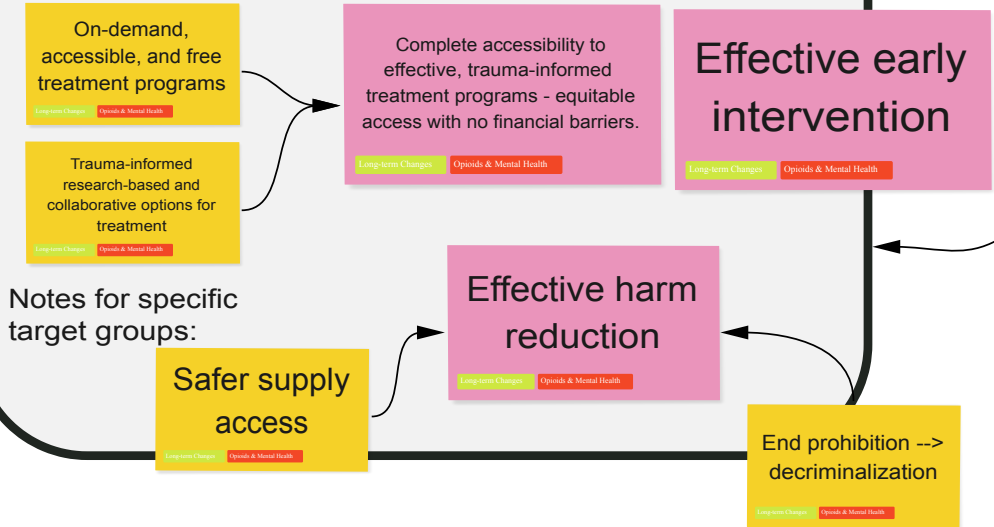

Top Problem Statements:

Top Target Groups

Long term changes

Intermediate changes

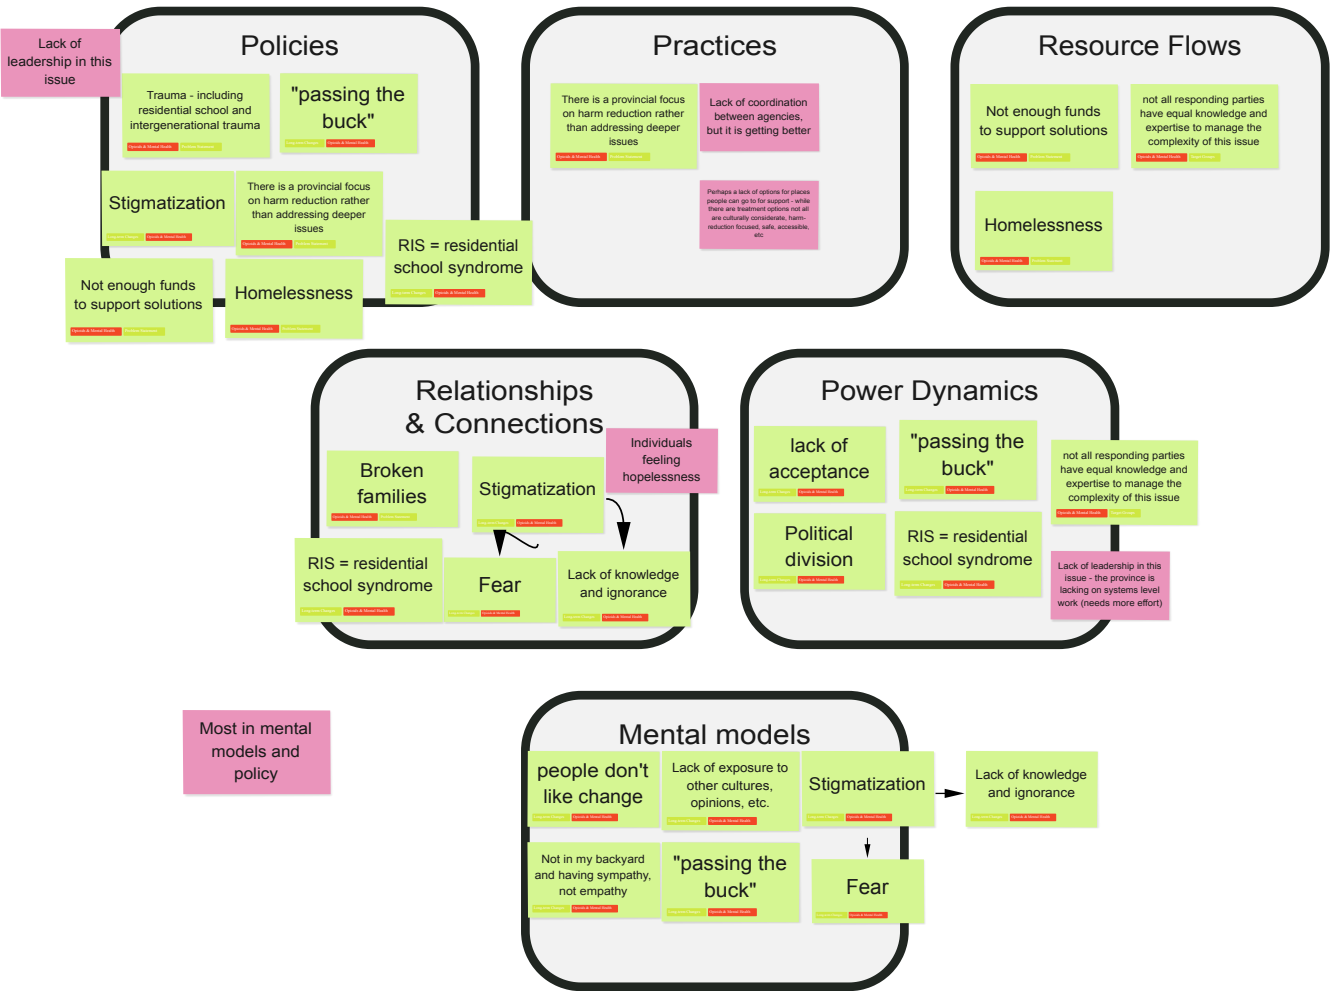

These intermediate changes determine the long-term changes and are absolutely requirements

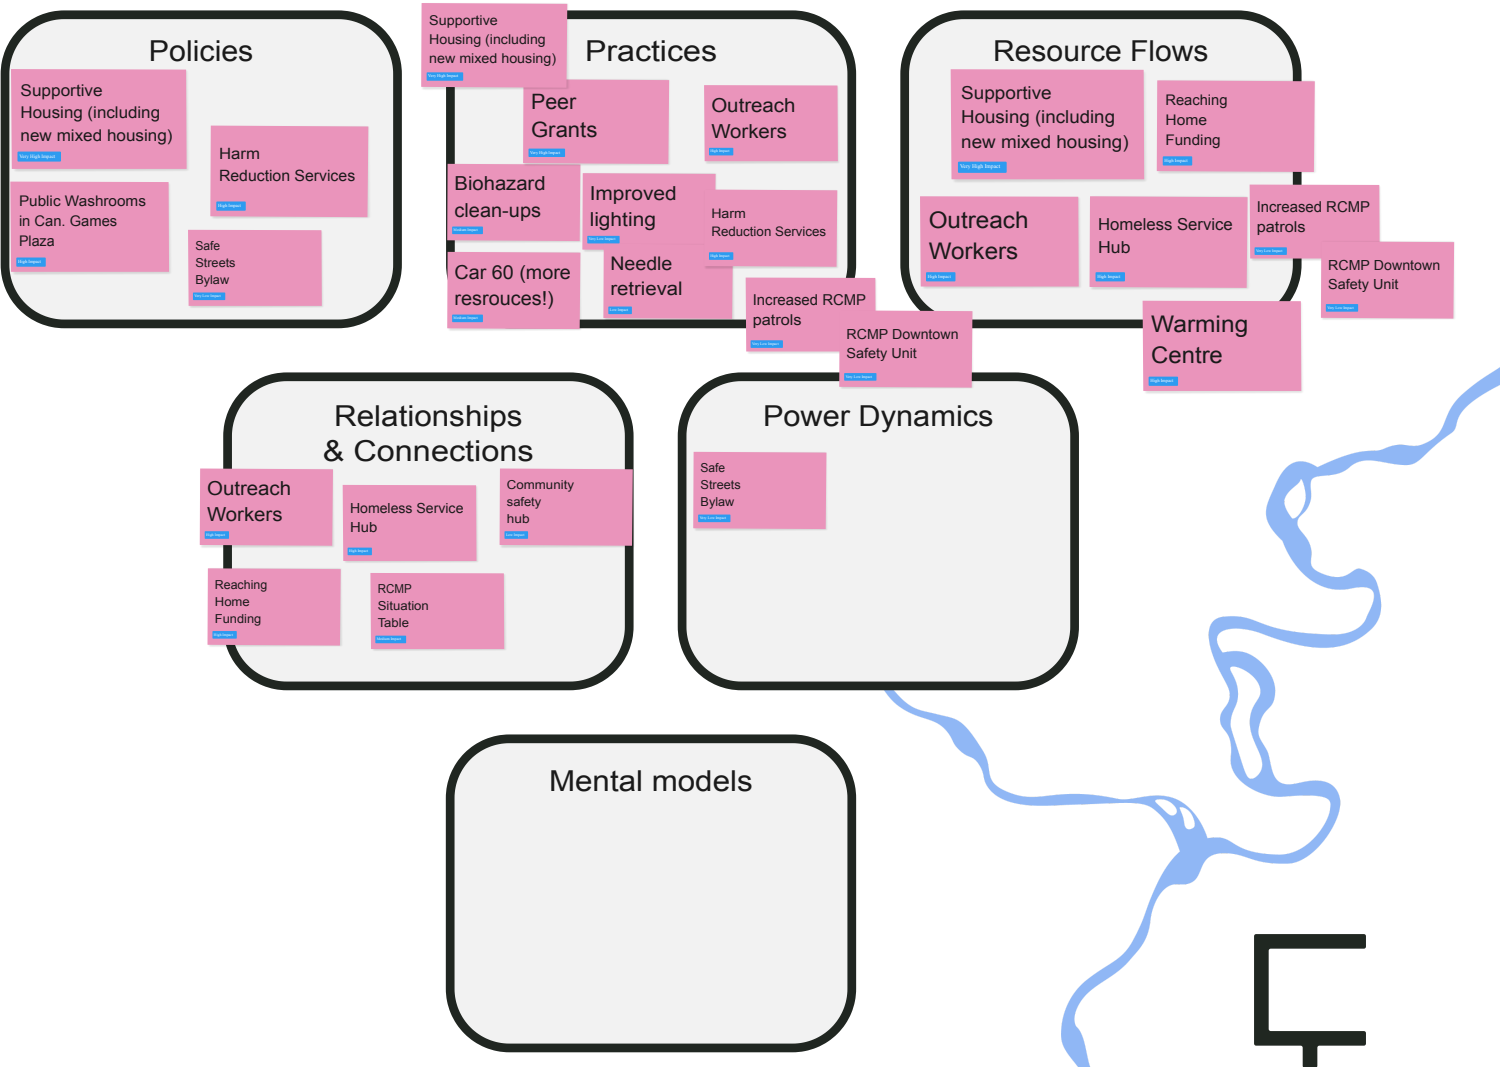

Opioids & Mental Health

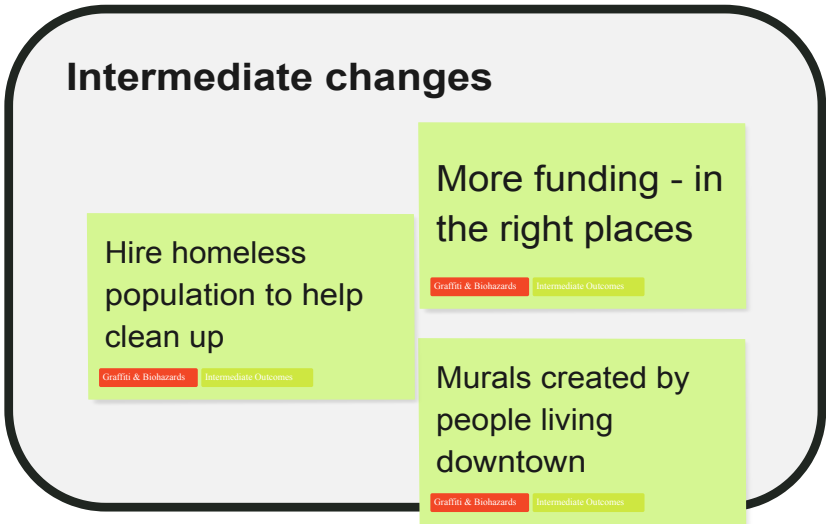

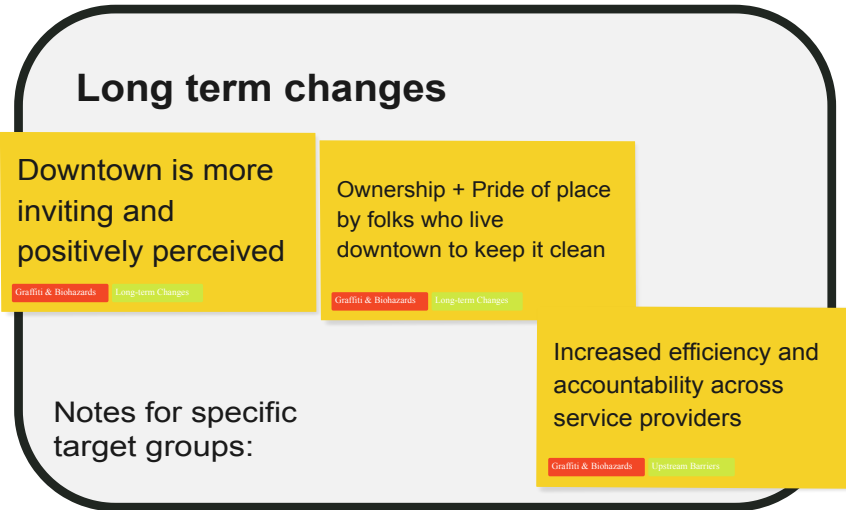

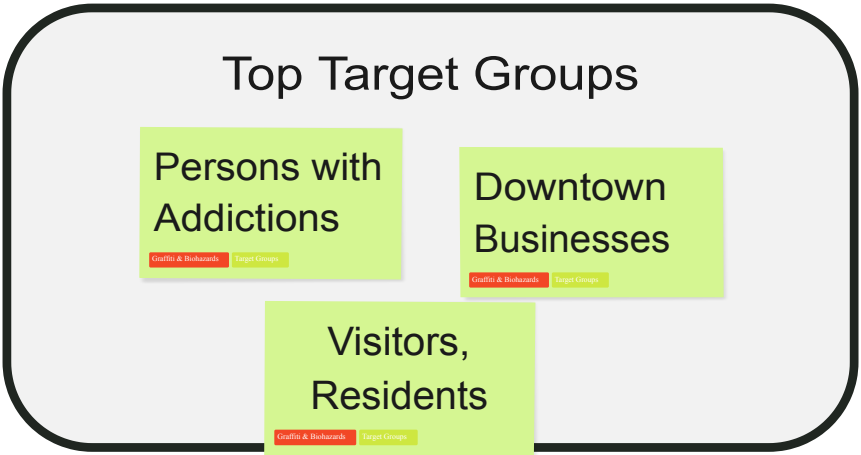

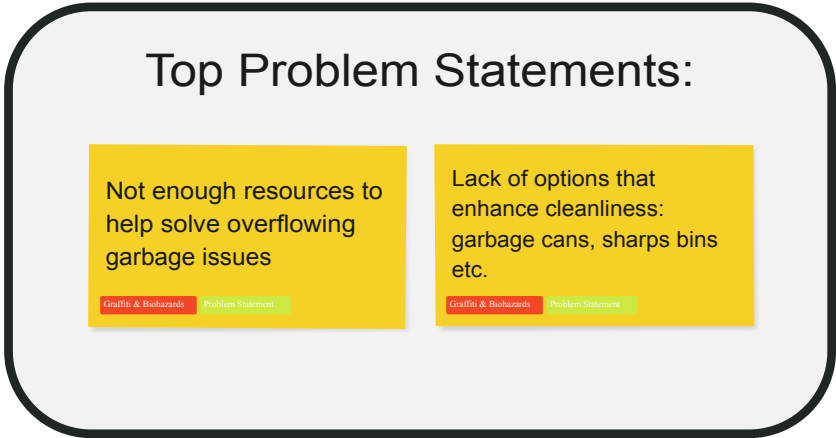

Identified Causes:

Ranked Interventions:

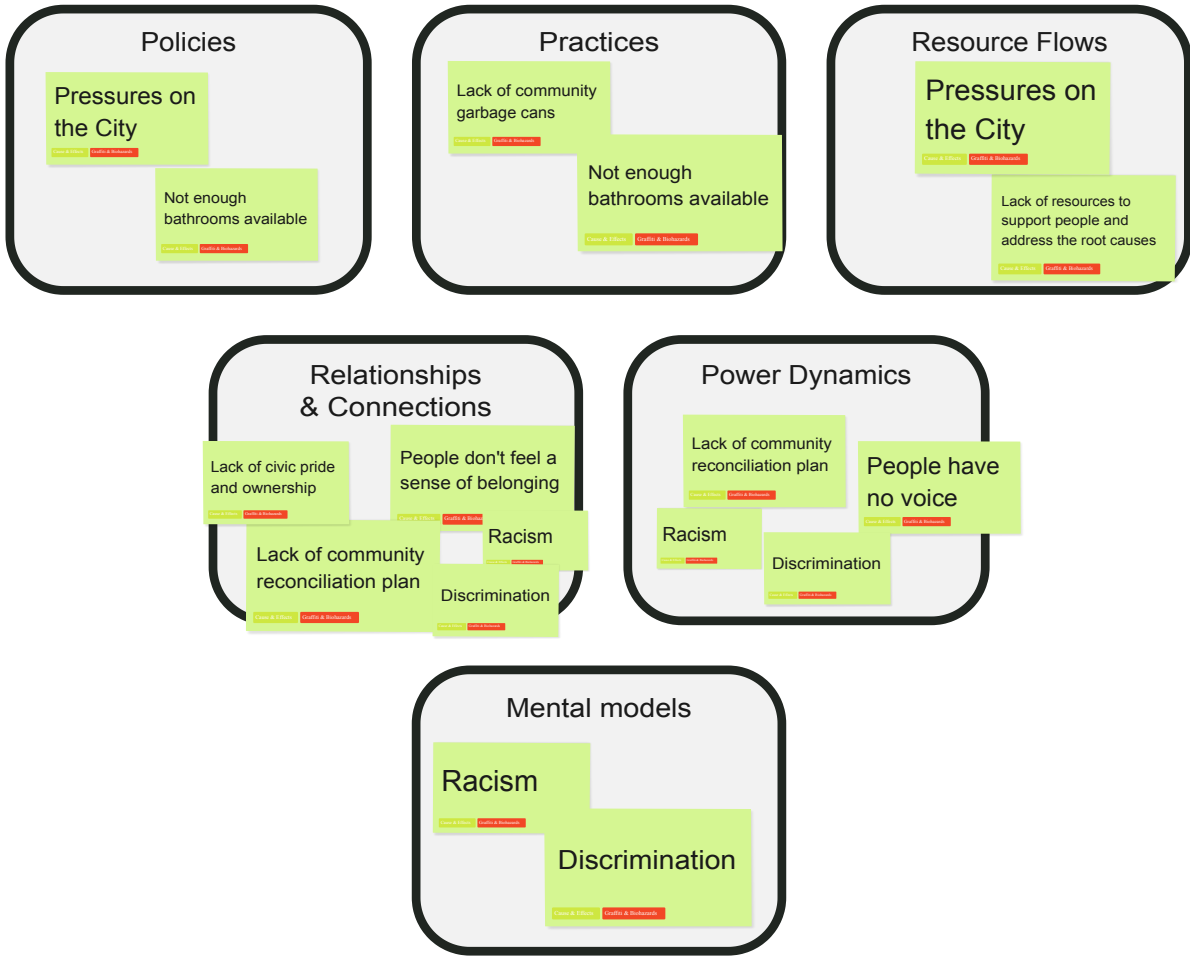

Graffiti, garbage, needles, and biohazards

A North Star was created to guide the impact you want to see in Prince George.

Everyone is seen as a member of the community, deserving of social connection and support, and everyone feels safe and proud to be a part of the community. We envision a place where **everyone can say "I feel like a member of our community."**

Through thoughtful conversation, we expanded and strengthened this shared vision to include belonging, a more refined definition of *everyone*, and a component of accountability

Is the North Star representative of the **long-term vision** for Prince George?

What do you **like** about it?
What is **missing**?

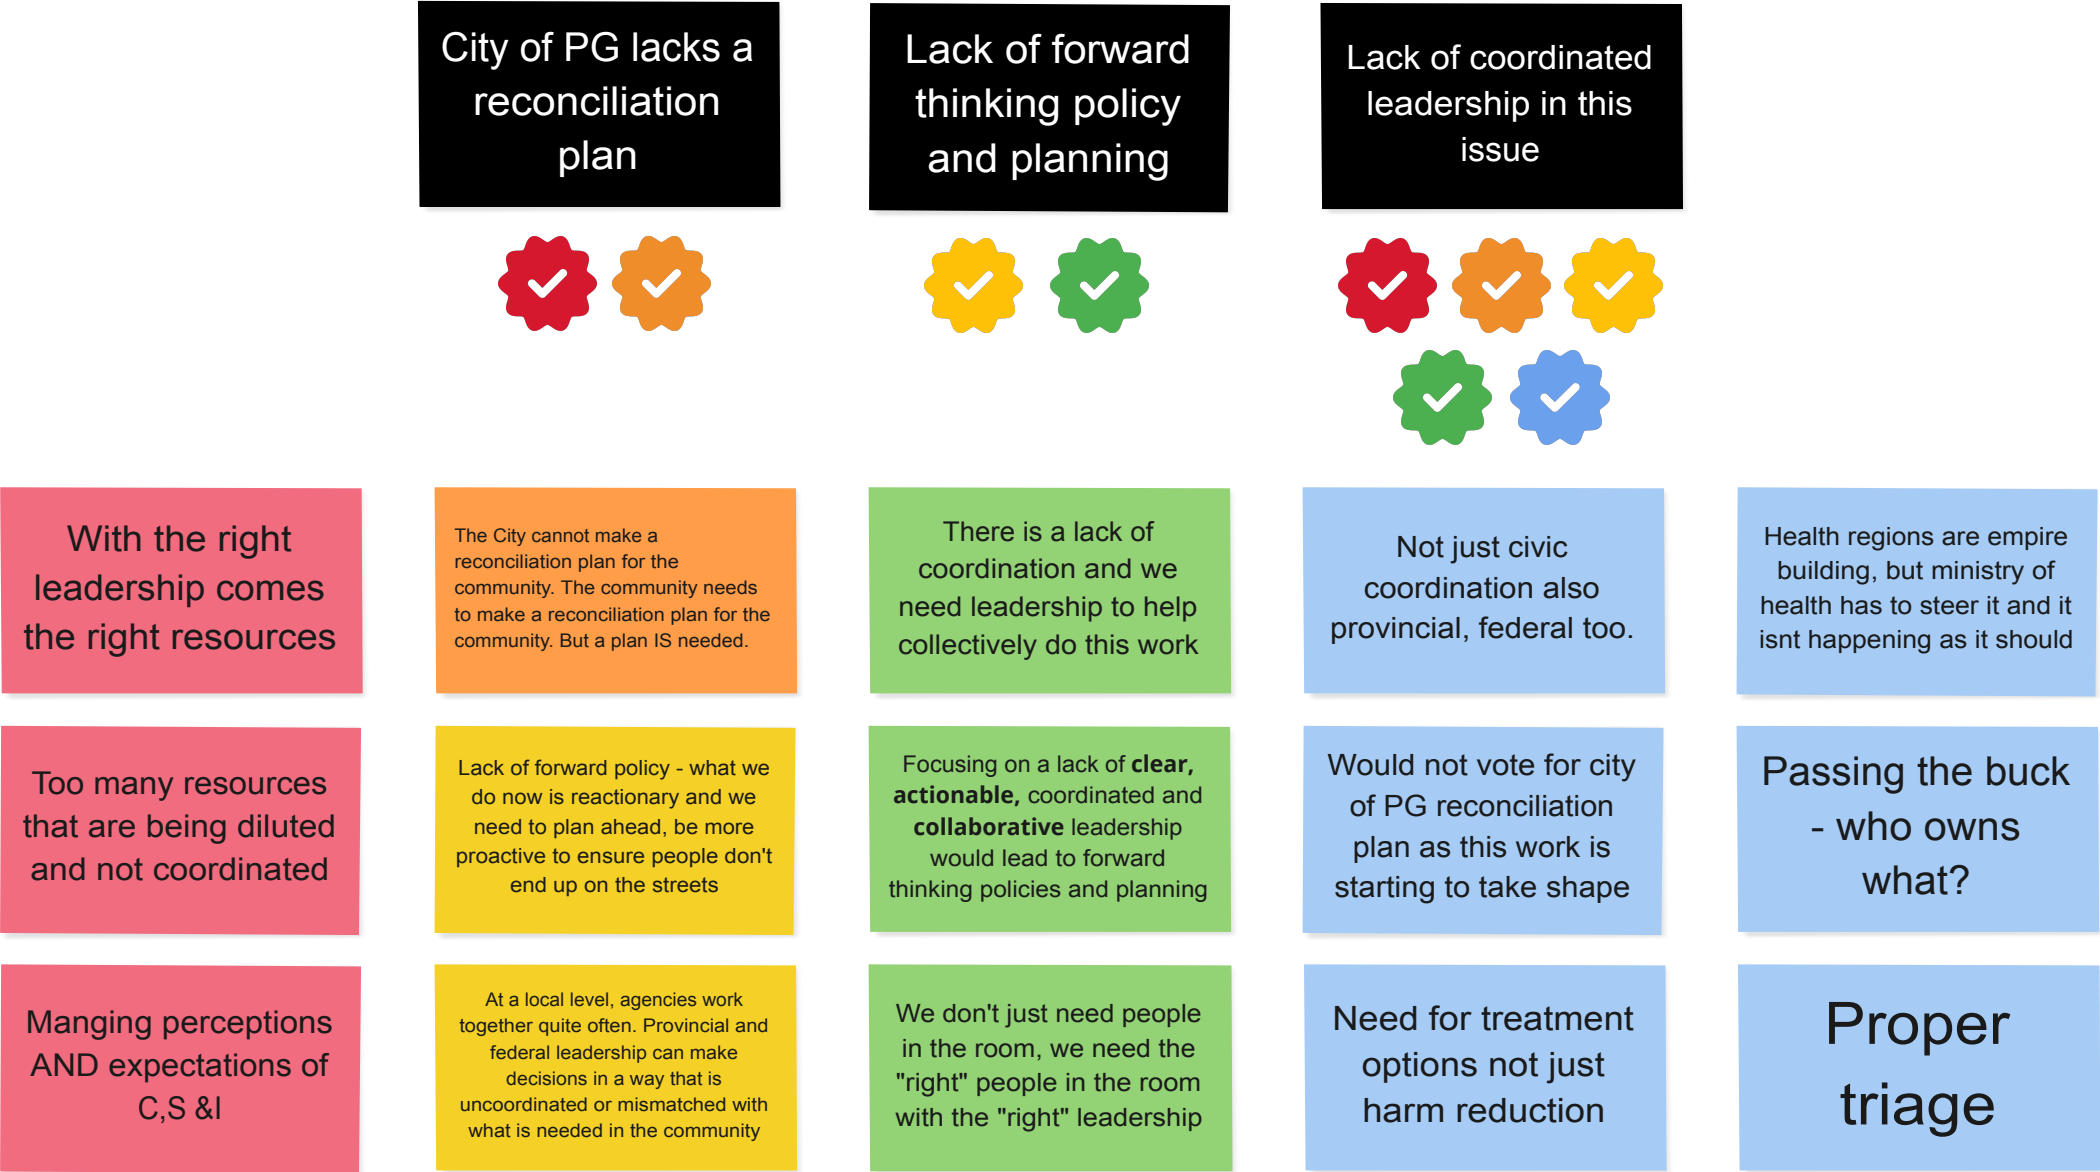

We then reviewed the 6 conditions of systems change and prioritized the key targets that would create the biggest impact

Here are the top ranked targets for each condition and some of the rationale why from the breakout group discussions

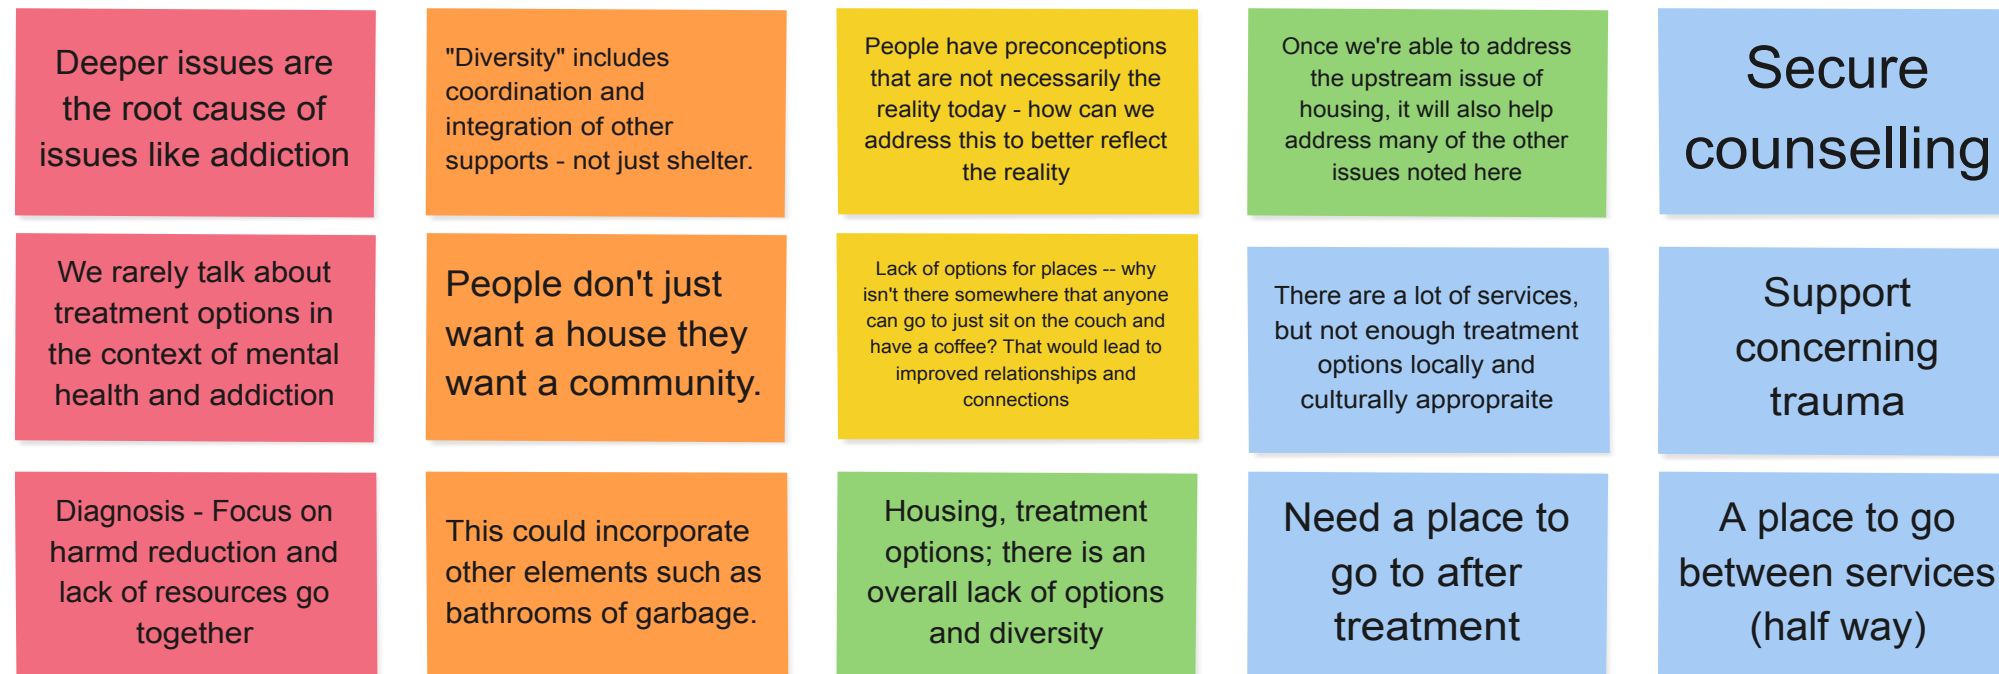

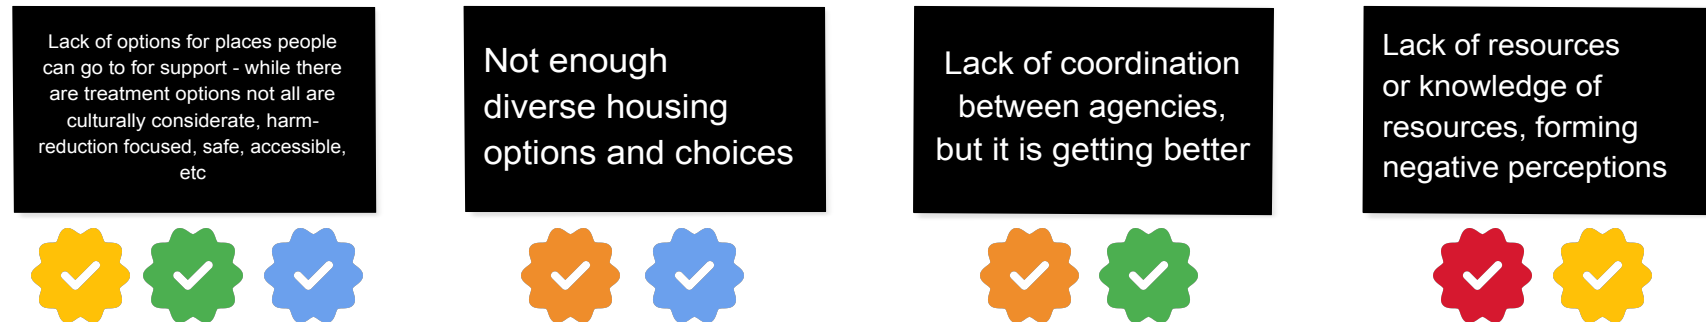

Policies

Government, institutional and organizational rules, regulations, and priorities that guide the entity's own and others' actions.

Practices

Espoused activities of institutions, coalitions, networks, and other entities targeted to improving social and environmental progress. Also, within the entity, the procedures, guidelines, or informal shared habits that comprise their work.

Resource Flows

How money, people, knowledge, information, and other assets such as infrastructure are allocated and distributed.

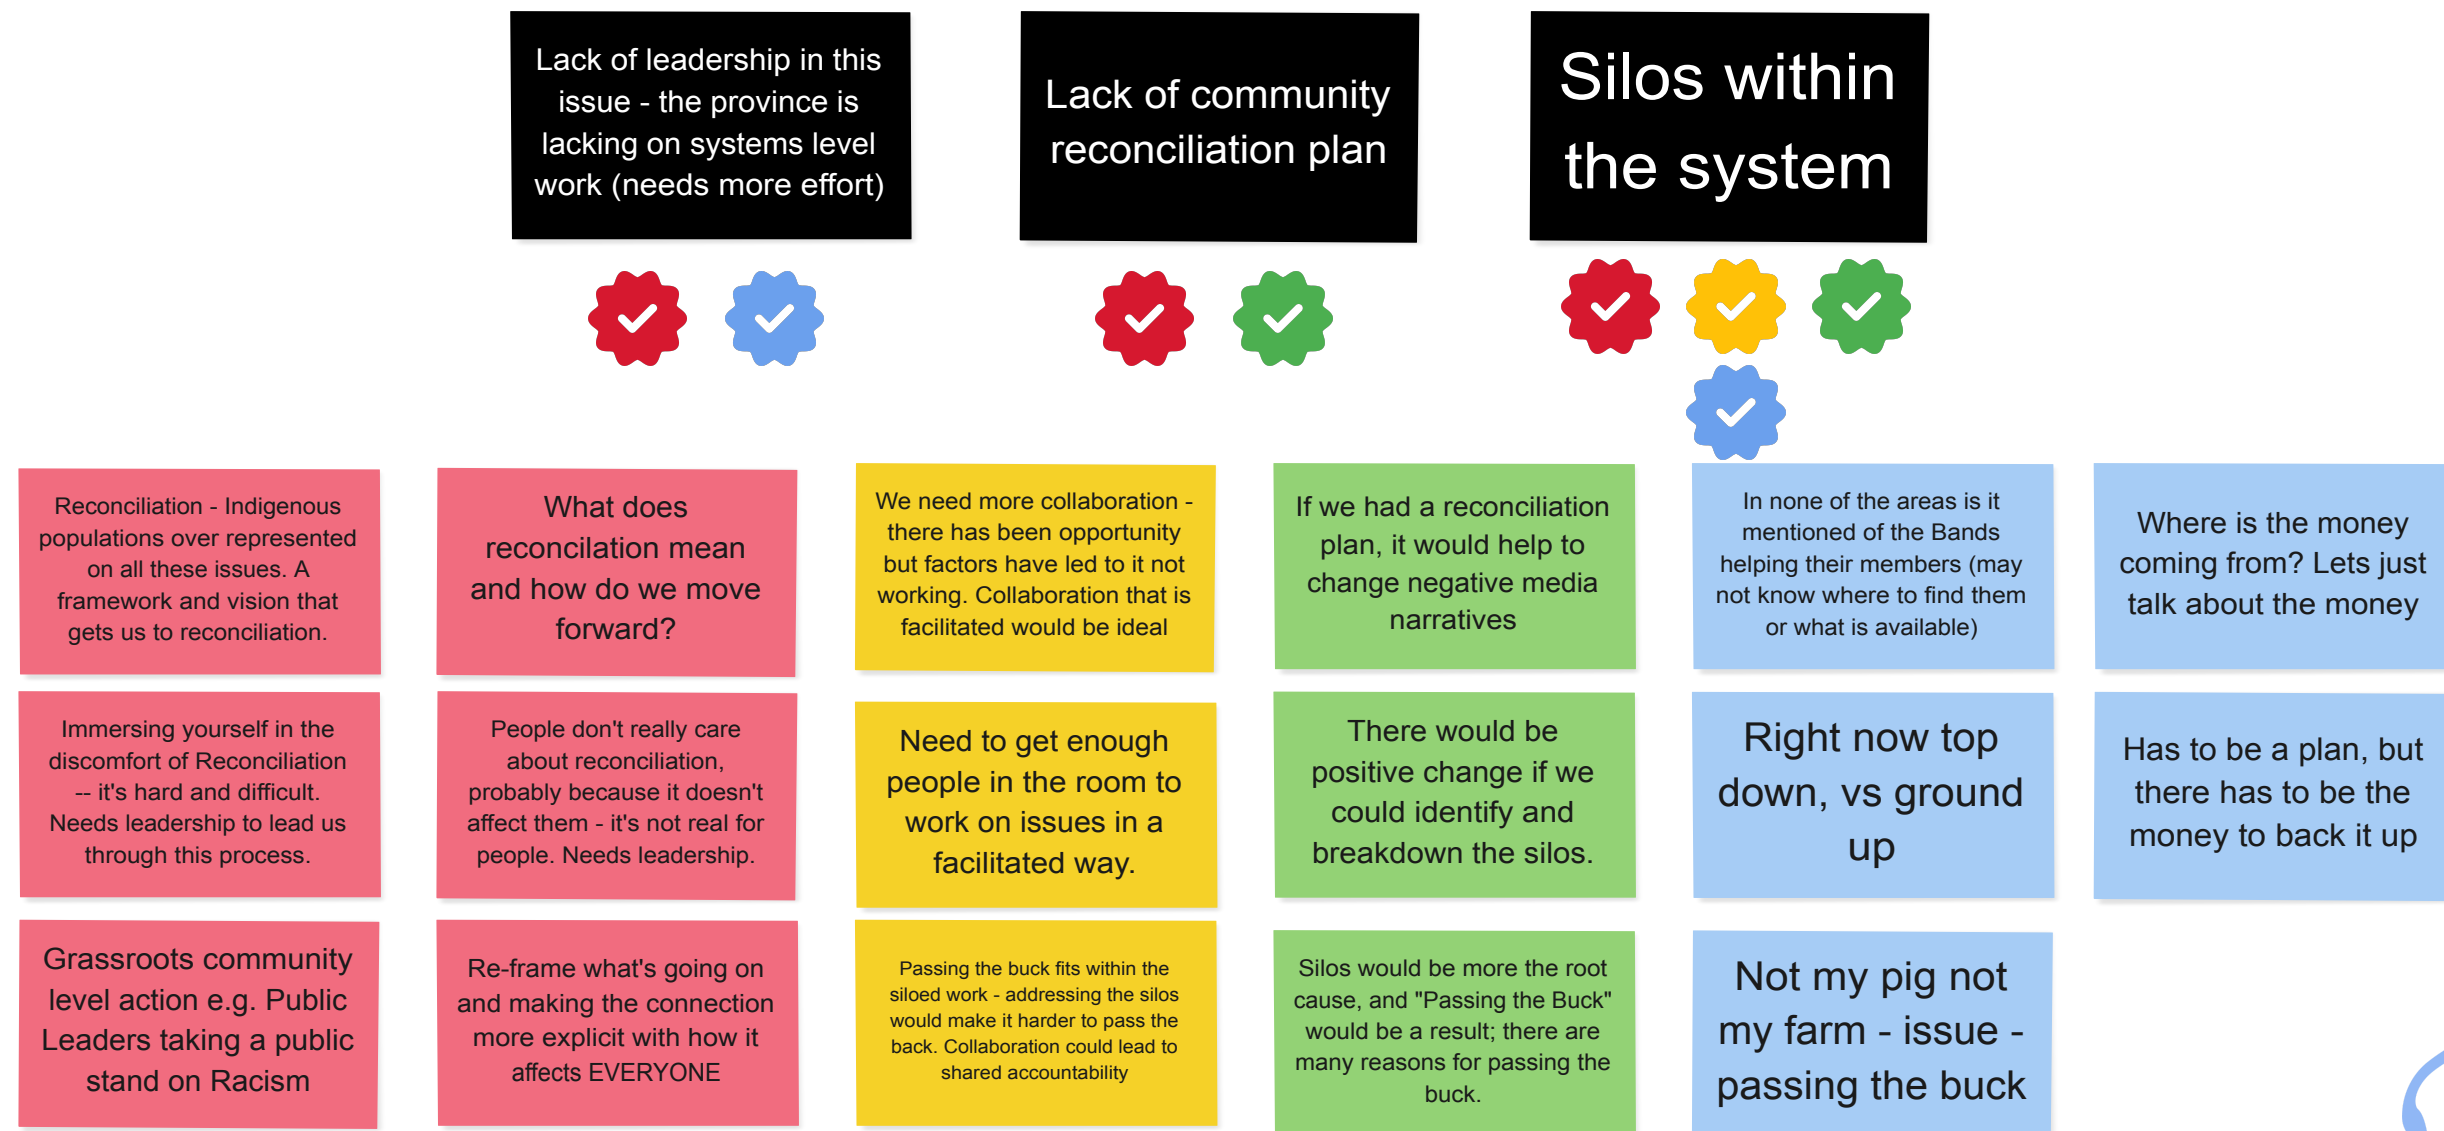

Relationships & Connections

Quality of connections and communication occurring among actors in the system, especially among those with differing histories and viewpoints.

Power Dynamics

The distribution of decision-making power, authority, and both formal and informal influence among individuals and organizations.

Mental Models

Habits of thought—deeply held beliefs and assumptions and taken-for-granted ways of operating that influence how we think, what we do, and how we talk.

We surveyed participants to understand the baseline of our evaluation capability and the roles that actors will play

The two surveys provided insight into the following questions:

BASELINE EVALUATION CAPACITY

- How is data collected and accessed?
- Who is included and impacted?
- What research and evaluation skills do we have or need to develop?
- What additional existing networks and data sources can we draw from for this evaluation work?

BEING AN ACTOR

- What role(s) will actors play in this evaluation framework?
- What barriers and supports prevent or enable participation?
- How might we focus the scope for this evaluation?

Our top skills are working with target groups, survey experience, and communications and reporting

Our participants also had skills in:

- Storytelling and anecdotal shared experiences
- Access to Provincial government research and data
- Eyes on the street daily
- Research/evaluation design and methods
- Marketing campaigns, advertising, writing, reports

Our participants shared that qualitative analysis, social media, and building strong relationships with target groups are the skills that would be most useful to develop

We will be using this data to design our Evaluation sprints - testing our framework

- We will present and launch the framework over a lunch session (date and time TBD) – this is also a time to meet and celebrate the work we have done
- Phase 4 will involve a series of Evaluation Sprints to implement, monitor, and act on the evaluation framework.

We appreciate the time, care, and engagement from all of our participants.

**Thank you for starting
this journey with us.**

We look forward to planning and preparing the sprints together.
