Subject: Strip club

Good morning.

I'm here to write to council about the proposed "gentleman's club" for the downtown core.

I urge council to pass on this. It's 2022. So men really need a place to go to see naked woman?

Ive lived in lower mainland my entire life until about 4 years ago. I grew up in a town where the local strip club was used to Redacted

If we talk about the culture, the tandoori nations culture of woman is constantly under scrutiny from the UN as woman are treated less than men.

What example does this city want to set for young woman?

The Tandoori nation has built an amazing facility. Why not have a comedy club and bring in more acts who would normally pass PG. Or a music/dance venue? These are things this city badly needs.

We do NOT need another strip club.

As a musician myself, and a previous resident of The City Of The Arts in Port Moody, there are so many more options that council could promote and business models that would encourage a positive shift in culture in the downtown core.

I urge you to reconsider this strip club. It's a past business that we no longer need.

Sincerely

Corey Allan Hawkins
