Subject: "Gentlemen's Club" downtown PG

Women are trying to gain the respect and right that they deserve, How does opening an establishment like this help women gain the respect they deserve? Why is this acceptable to have men oogle at women in skimpy clothing when the women just want to earn a living.

I'm 100% opposed to this as is disgraces women and only makes it "acceptable" for men to continue to have poor behavior towards women.

1. Disrespectable towards women
2. Continues to encourage men to act inappropriately towards women and view them as only objects.
3. late hours = higher chances for drugs/drinking/vandalism/violence
4. I thought PG wanted to revive downtown, and make it better, not degrade it and cheapen it even more.

Regards,
MB
