

An aerial photograph of a residential development on a hillside. The houses are built on a slope, and there are some bare trees in the foreground. In the background, there are mountains and a forested area.

Integrated Stormwater Management Plan 2021

escarpment system is already in trouble!

\$4.5 + \$17 million as of 2016 analysis to remediate

city bylaws do not require new development to reduce volume of stormwater run-off; damaging natural watercourses and increasing sedimentation; burden rests on taxpayer

failure to enforce existing stormwater management objectives

escarpment development trends will make this worse!
