Hello.

Please see the letter of support below from all shareholders of the Heritage Medical Building.

Attention: Development Services / City of Prince George Mayor and Council

Re: C8 Rezoning - 1677-7th Avenue

This is to let you know that we are fully supportive of the proposed C8 commercial conversion of 1677-7th Avenue.

Dr. Amy Johnson and her husband are responsible and attentive neighbours. The property has been substantially enhanced under their stewardship. We have not noticed any adverse impacts to the street since they became owners here and do not anticipate this changing. In fact, it is our belief that their proposed commercial venture can only enhance what is becoming an attractive downtown street with a mix of interesting businesses and residences.

Kind regards

Gwynneth Purnell - Building Manager

On behalf of the owners of the Heritage House Medical Building (1624-7th Avenue)
