Subject: Queensway corridor

To whom it may concern,

Good day. I am homeowner and resident living on the Queensway corridor. It takes a special dedication to live in this area, an optimistic attitude and a faith that all will be good, like being optimistic for our downtown.

A number of years ago the RCMP held a town hall meeting regarding the corridor and its issues and since then there have been some improvements. Although, still disappointing to seeing hookers continuing to being picked up and dropped off on routes kids take to and from school, but still better. I'd be interested to know what the RCMP reaction would be to a liquor store at the proposed location on Queensway. My reaction is not favourable and I'm hopeful saner heads will prevail.

Thank you for your time,
Peter Hemsall.
