## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

Nick Drazenovic

IF YOU SUPPORT the proposed liquor retail store at 1933 Queensway Ave, please provide your name and signature in the space provided below.

The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.**

**The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.**

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## **TO WHOM IT MAY CONCERN**

**My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.**

**I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.**

**Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.**

**I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB); including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.**

**The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.**

With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

Nick Drazenovic

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

Nick Drazenovic

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

Nick Drazenovic

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

Nick Drazenovic

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

Nick Drazenovic

IF YOU SUPPORT the proposed liquor retail store at 1933 Queensway Ave, please provide your name and signature in the space provided below.

## **TO WHOM IT MAY CONCERN**

**My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.**

**I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.**

**Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.**

**I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.**

**The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.**

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

~~Having spent a large portion of my childhood, along with family that has spent most their~~ lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

Nick Drazenovic

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

  
Nick Drazenovic

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

Signed

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.

## TO WHOM IT MAY CONCERN

My name is Nick Drazenovic and I am the proponent of a new liquor retail store to be relocated to 1933 Queensway Ave.

I was born and raised in Prince George, went to school in Prince George and fulfilled a childhood dream of playing for the Prince George Cougars. After playing professional hockey for 10 years in the United States, I am proud to be raising my young family in the city that I consider home.

Having spent a large portion of my childhood, along with family that has spent most their lives in the area, I understand the challenges that the community has gone through. My intention is to help support a community that has turned a corner and has become a more desirable location to live in.

I currently own another liquor retail store in Quesnel and I am proposing to relocate the Alpine Cold Beer & Liquor Store from the Hart Highway to 1933 Queensway Ave. The current commercial zoning requires a modification to permit the operation of a liquor retail store. The proposed store will abide by the very strict regulations of the Liquor and Cannabis Regulation Branch (LCRB), including the site specific regulation that requires any liquor store to be separated by a minimum of 1000 metres. With that in mind the closest store is Shooters, next to SaveOn in Parkwood Mall.

The proposed liquor retail store will be a high-end, upscale establishment, with a state of the art security system and trained staff. The entire premises will be completely fenced and landscaped, and there will be no direct pedestrian or vehicular connection to the residential neighbourhood. I anticipate that my retail store will be an improvement to the Queensway commercial area which may encourage other commercial property owners to consider similar upgrades. Improvements and facade upgrades will have a positive impact on both commercial and residential real estate prices in the area.
