Re: Dawson Road PID 015-258-360

Written comment

I am opposed to this development/rezoning for the following reasons :

1. This area proposed is a safe travel corridor used by wildlife for safety and seclusion. I do believe that the ponds and waterways within this area are fish bearing waterways. Has the CO service and the DFO been consulted?
2. local people use the trail network (within the propoasal) to improve physical and mental Well being. In addition
3. children use the evergreen park area for winter activities.
4. West bound traffic on Austin road east poses a safety concern as the large dip in the road creates a safety hazard for people wanting to turn west on Austin road from Dawson Road

This developmental proposal should not be approved as per the above

Sincerely,

Jim and Allie Fenske
