Subject: Twinberry Trailer Park

Attention Mayor Yu and Council Members,

Being a recent resident to a modular home, it's been the best decision for my husband and I as we wanted to downsize. We have been very impressed with the new modern look of the modular homes nowadays and they can be customized. A new development of a trailer park at Twinberry drive would be a great idea for seniors, first time home buyers, people looking to downsize, and low income families. Being in a neighbourhood would also encourage engagements between families with children. Considering there has been more people moving to Prince George, we need more affordable housing in order to sustain people to stay in our community to increase our economy and businesses.

Thank you so much for your time.

Dorothy
