

City of Prince George Transit Future *Action* Plan

November 18, 2019

Transit Future Plan

What is a Transit Future Plan?

A 25 year plan that creates a vision for transit and supports the economic, social and environmental sustainability goals of the region

- Guides and prioritizes future investment in the transit system
- Sets ridership targets
- Identifies key transit corridors and the supporting local transit network
- Identifies the fleet, service priorities and infrastructure needed to support the transit network
- Includes the conventional (fixed-route) and custom (on demand handyDART) transit system in the City of Prince George and may include areas beyond the city limits

Transit Future Plan

2014 Mode Share Target: 4% by 2038
