Good morning, I am the owner of the adjacent property to this proposal and I was not consulted and I have even reached out to L&M Engineering and have not received any response. I vehemently oppose this proposal and I will not hesitate to take legal action against the city if this proposal is passed. This would have direct negative impact on my property and my personal well being. I have just purchased this property and moved here from Quesnel, I specifically bought my house because of the demographics of this area which I very much like, I do not want any kind of "for profit" housing project beside my home. From looking at Facebook I can see that the entire community here opposes this and I fully expect that the council will respect its constituents wishes and dismiss this bylaw amendment.
