Hello, Please find a brief statement from Tourism Prince George regarding our feedback on Short Term Accommodations:

*We view all accommodators in Prince George as valued partners.*

*Tourism Prince George understands how the province's new rules for STRs could be positive in keeping hotels at their capacity, and also addresses the housing crisis, by expanding regulation and ensuring accurate data and data sharing-- strengthening both local and provincial government enforcement tools. This does not mean Tourism Prince George is against STRs.*

*Our goal at TPG is to position Prince George as a year-round Basecamp to Adventure, while putting efforts in place that drive our local and regional economy.*

*We know that can only be achieved by working together with all our partners that play a role in enhancing the visitor experience.*

Thank you,

--

**Colin Carson** (he/him/his)  
Chief Executive Officer  
Tourism Prince George
