I am Co-owner of Nechako Brake & Wheel Ltd. 681 2nd Ave.

Just over a year ago our building was burned, and costs in the hundreds of thousand for repairs. This fire was caused by the homeless. Every week we have break ins to vehicles in our parking lot and damage to them. This costs our customers to have the repairs done and is not good for business. obviously. The year before another mechanical business had the same thing happen. Down time costs us, and yet you still want our tax money. Our city needs to figure this out before there are no businesses left. We do not need to put more housing in our area. We have had enough of Moccasin Flats already and the housing that presently exists for the "Homeless" Time to fix this issue not make it worse.
