Subject: Effects Moccasin flats *redacted

To: Honourable Mayor and Councillors Prince George

I am a veteran with 25 years military service including two tours overseas. Unfortunately, the things I saw and lived are too devastating to describe which has left me with *redacted
Having moved to Prince George 11 years ago; we chose this neighborhood because it was quiet and we felt safe but within the last number of years this neighborhood has changed with the beginning of MF. With gunshots, explosions, fires, criminal activities and deaths..it has *redacted

This land is owned by the city and was not because of me or my neighbors doing anything but we are subjected with toxic fumes, crime, fire, explosions, etc. There used to be fencing down between MF and the community but like most things a lot has been torn down...why should I as a taxpayer have to remain paying for shelters, infrastructure for little homes when there at least three hotels to house them.

Oh, I know we have been throwing good money at the situation to try and make them happy. Our rules do not always suit them so they do not obey them. If I was to do things that did not suit the city, someone from by-law would be on my doorstep before I even had a chance to know there a complaint. Honourable Mayor and Counsel members; everyone knows that we the community have made our complaints and nothing seems to be moving forward. Please don't give me crap about the legal injunction as the city has spend more money ignoring the situation then taking back the land.

As each of the citizens and businesses of this community are fed up...There has already been too many deaths and mayhem down on the flats. Fire season has begun and more homeless may end up living on the flats. Will the counsel being paying for our homes and expenses should one of these fire jump the road.... Enough already, stop the bullshit and deal with it If we left our property in a similar-condition city Bylaws would be tickeing us over and over again

Sincerely
Nancy Hollywood
