Please consider my request for support for the notice of Motion, in regards to a Town Hall meeting for Millar Addition and Queensway Business District.

As a property owner, the supportive housing planned for 397 3rd Avenue will negatively affect the surrounding Queensway District and Millar Addition residents both personally and financially, without a comprehensive plan in place that includes protection of the properties and business and residences.

The City of Prince George needs to uphold the service standards that our community and tax payers expect and depend on.

PG downtown and Moccassin Flats are prime examples of the City of Prince George not doing their due diligence. The crime, vandalism, graffiti, garbage, broken windows, open drugs and fires of having No POLICIES and STRATAGIES in place to manage the complete disintegration of our city! (I should not have to tell you this, as I know you are well aware)

Your city of Prince George website states "You are here to serve" not for a select group but for ALL citizens.

Do your job and show the citizens and business owners of PG that you have their best interests in mind as well.
