Hi, so here i am going to share my reasons why daycare should be here -if there will be day care then it will be more easy for parents because they can leave their kids to day care and without any stress they will be able to do their jobs . Also, parents can come and see their child doing creative activities. Moreover, i believe daycares are more flexible related to hours . I need more hour for doing this job because i love working with children . So if there will be daycare it will be big opportunity for me to enhance my knowledge and skills regarding child activities, child care etc. If i will have more hours , i can help to organize creative activities for children so they can play and learn so many creative things by going that activities. Furthermore, as you prince george is very small city and its really hard to find any good daycare and there are not much job opportunities. So with opening day care here it will be beneficial for bringing for new job opportunities.
