Dear City of Prince George

I am writing in favour of allowing a variance for this project.

I feel the unique nature of this lot, with it's pie shape, necessitates a unique approach from the city so that the residents can enjoy the full use of their property.

I recognize that I do not live in the neighbourhood, but I saw the ad and felt I should speak up. I do not know the family involved in the project.

I am a Realtor and I see lots of properties and I can see that this deck project will increase the property owners enjoyment of their home.

Sincerely,

Lori Cruddas
