Kali Holahan Supervisor, Land Use Planning, City of Prince George

Dear Ms. Holahan,

Subject: Request for Concurrence for a TELUS Telecommunications Tower

Address: 9136 Milwaukee Way, Prince George, BC

PID: 009-611-274

Coordinates: 53.838648° N, 122.741372° W

Rogers Site: BC104272

Please be advised that following Innovation, Science and Economic Development Canada (ISEDs) consultation process commonly referred to as the CPC, TELUS has completed the public consultation process and is respectfully requesting concurrence for the proposal to build a 60-metre self-support tower and equipment installation. The project was previously approved by Council in 2021 although, more than three years has lapsed, and the structure has not been constructed. As such, TELUS has re-completed its public consultation process. Please find a summary of the consultation process below:

- ➤ On June 13, 2024, Telecommunications Development Application was submitted to the City formalizing the initiation of the consultation process for the proposed tower location. Please see
- ➤ On June 15th, 2024, Notification packages were issued to recipients who fell within three (3) times the tower height (195m) of the proposed location, as per the ISED requirements Please see **Appendix 1: Notification Package.**
- On June 20, 2024 an advertisement was placed in the Prince George Citizen. Please see Appendix
 2: Newspaper Advertisement.
- On July 20th, 2024, the 30-day consultation period concluded. During the consultation period, one (1) comment was submitted asking about access to the tower. No comments opposition were received throughout the 30 day consultation period.

If Council concurs with the proposed tower project, please find in **Appendix 3: Resolution Example**, a sample resolution which may be used.

TELUS is committed to working with the community to find an acceptable location and infrastructure design. Should you require any additional information, please do not hesitate to contact us at 604-910-7310 or by e-mail at chad@cypressslandservices.com.

Appendix 1: Notification Package

Dear Owner/Occupant, June 13, 2024

Please accept this notification regarding proposed TELUS Communications Inc. ("TELUS") wireless service improvements in your community.

Subject: Telecommunications Facility Proposal

PID: 009-611-274

Address: 9136 Milwaukee Way, Prince George, BC V2N 5T3

Coordinates: 53.838648° N, 122.741372° W

TELUS Site: BC104272 - "Prince George – Milwaukee Way"

What is TELUS Proposing?

TELUS seeks to continue to provide high quality wireless telecommunications services to communities throughout British Columbia. Increasingly, communities depend on wireless voice, data and internet communications for business, personal enjoyment and personal security reasons. In order to ensure improved wireless services to Prince George, TELUS is proposing to add a telecommunications facility.

The new facility is proposed to be located 9136 Milwaukee Way, Prince George, BC. TELUS is proposing to construct a 64 metre self-support tower in the south-west corner of the property to improve telecommunications services within a few kilometres. The tower will have 6 antennas at the top and the entire facility will be enclosed at the base with security fencing to ensure public safety. *Note, this tower was previously approved by City of Prince George in late 2021 but because the tower was not constructed within 3 years, TELUS is reconsulting the public.*

Regulatory Authority

Telecommunication providers are required by Innovation, Science, and Economic Development Canada (ISED), formerly Industry Canada, to consult with the local municipality and the general public regarding new installations. ISED does have exclusive jurisdiction over the approval and placement of telecommunications installations.

The consultation process will provide an opportunity for residents, stakeholders and landowners to obtain detailed information regarding the proposal and to provide comments for consideration. Any inquiries that are received as a result of this notification will be logged and submitted to the City of Prince George as part of our application for concurrence.

Local Municipality

The City of Prince George does not have a telecommunications consultation process to guide the consultation process with the public. As such, ISED's Client Procedures Circular CPC-2-0-03 (CPC) consultation process will be followed. This process requires all properties within three times the structure height be notified (in this instance those within approx. 192.0 metres). This notification is to provide the opportunity to obtain information regarding the proposal, ask questions and provide comments. The closing period for comments to be received by TELUS is **July 20, 2024.** A wireless antenna installation application has also been made to the City of Prince George.

Location

The new facility is proposed to be located at 9136 Milwaukee Way, Prince George, BC at the coordinates 53.838648, -122.741372. The facility will be located in the south-west corner of the property. To confirm, there are no existing structures in the vicinity of the proposed tower to collocate antennas on. The proposed tower

may have sufficient space and loading capacity for additional antennas should another carrier wish to install equipment to support their network requirements at this location dependent upon the type of equipment.

Safety Code 6

ISED requires all wireless carriers to operate in accordance with Health Canada's safety standards. TELUS attests that the installation described in this notification package will be installed and operated on an ongoing basis so as to comply with Health Canada's Safety Code 6, as may be amended from time to time.

Site Access

Access is via Milwaukee Way. Construction is expected to take approximately two months.

Environment

TELUS confirms that the installation is excluded from environmental assessment under the Canadian Environmental Assessment Act. Any municipal environmental regulations will be followed.

Transport Canada

The tower will be constructed to include aeronautical markings or lighting required by Transport Canada. Comments are pending.

Structural Considerations

TELUS confirms that the antenna structure described in this notification package will apply good engineering practices including, structural adequacy during construction.

General Information

General information relating to antenna systems is available on ISED's Spectrum Management and Telecommunications website: http://www.ic.gc.ca/eic/site/ic-gc.nsf/eng/07422.html.

TELUS' let's make the future friendly-

Structure Proposée:

Dans le cadre du processus de consultation publique exigé par Innovation, Sciences et Développement économique Canada (ISDE) et le Ville de Prince George, TELUS invite le public à formuler des commentaires sur un projet d'installation de structure de télécommunications consistant en un tour autoportante de 64,0 mètres de hauteur et de l'équipement radio auxiliaire situé sur une propriété privée au 9136 Milwaukee Way, Prince George, BC V2N 5T3.

Appendix 3: Sample Resolution

Resolution

Whereas TELUS proposes to erect a wireless telecommunication tower and accessory structure on certain lands more particularly described as PID: **009-611-274**, with the civic address of, **9136 Milwaukee Way, Prince George, BC**;

AND WHEREAS proponents of telecommunication towers are regulated by ISED on behalf of the Government of Canada and as part of their approval, ISED requires proponents to consult with land use authorities as provided for in CPC-2-0-03;

AND WHEREAS TELUS has consulted with the City and the City has no objection to the proposed telecommunications tower;

AND WHEREAS TELUS has consulted with the public by notifying all property owners and occupants within three (3) times the tower height and has provided 30 days for written public comment;

AND WHEREAS there are no significant land use issues identified by the consultation;

NOW THEREFORE BE IT RESOLVED THAT:

- 1. The Clerk be instructed to advise TELUS that:
 - a) TELUS has satisfactorily completed its consultation with the City of Prince George;
 - b) The City of Prince George is satisfied with TELUS' public consultation process and does not require any further consultation with the public; and
 - c) The City of Prince George concurs with TELUS' proposal to construct a wireless telecommunications facility provided it is constructed substantially in accordance with the plans submitted to it and described as BC104272.
