**Re: Letter of Support for Canadian Hydrogen Association's CanExport Community Investments Funding Application**

To whom it may concern,

On behalf of the City of Prince George, I am pleased to provide this letter of support for the Canadian Hydrogen Association (CHA) in their application for CanExport Community Investments funding.

The CHA's initiative to develop a hydrogen foreign direct investment (FDI) strategy and create materials promoting Canada's readiness in clean hydrogen technologies aligns with the City of Prince George's goals of fostering economic growth, sustainability, and innovation in British Columbia and beyond.

We believe that advancing hydrogen sector investment will bring significant benefits to communities across Canada, including ours, by enhancing economic development opportunities and contributing to a clean energy future.

The City of Prince George fully supports the CHA's application and the potential this project holds for attracting international investments to Canada's hydrogen sector.

If further information is required, please do not hesitate to contact my office.

Sincerely,

Mayor Simon Yu  
City of Prince George
