I continue to stand by my comments a council meeting in July of 2021 re the development at the end of Southridge ave and several other developments proposed for Upper college heights. This neighborhood lacks parks and green spaces for families to enjoy. There is potential for some amazing trails and bike routes in the area but these are getting encroached upon from all directions. Developers are not living up to this promise of recreational spaces. I believe that this unmitigated development will come at a cost to health and wellness of the community. Please do not approve any more multi family complexes in this area.
