#### For which application would you like to provide comments? (One form per application)

RZ100706 - Bylaw 9408 (6700 Southridge Avenue) - Meeting Date: June 12, 2023

#### Comments

I am against the development of this property and change in bylaw to allow developers to develop this property. I am in strong support of keeping as much forest as we can to reduce heat islands in an area that we can prove with data already is prone to having heat islands. Climate change and its' impacts need to be considered with city planning.

The data I'm referring to is: <https://healthyplan.city/en>.

More information can be found here: <https://healthydesign.city/tools/>

In addition, green space has been shown to have a positive impact on mental health. If this property is developed there we be limited green space in the area and a feeling of "concrete jungle". I will personally consider moving from the neighbourhood if this property is developed.
