Hello, my name is Jordan Kelley I live in the College Hights residential park on O,Grady RD. I have a few questions and concerns.

We have not been given much of any detailed information on the projects happening around the park. This has all come to us as a surprise and it's caused us and many others in the park alot of stress. From what I understand there is talk of building a apartment building and extending the road on stringer cres.

We live in unit [Red] in the park and looking at the maps provided this puts the apartment building very close to our home basically looking into our yard. This creates privacy issues for not only me but many other families in the park. (Im not sure why Troika would even want to have a building facing a mobile home park but thats beyond me.)

having this development happen will also put a busy road right behind our house with barely any trees to shelter out noise, pollution and traffic. Our yard is not fenced, this is the same for many family's with mobile homes in the park. Having a busy road right next to our back yard causes us alot of stress and anxiety. Having a busy road next to our backyard is a safety issue aswell as our child plays in our back yard. Not only will there be vehicle traffic to worry about but this will cause alot of foot traffic,noise and pollution as our whole back yard will be exposed. One of the reasons why we moved here was because of all the forest area and how quiet and safe it is. This will be stripped from us and I feel this is very unfair.

There is also a pathway that many family's use to get groceries from Save on foods. If a road is built here it will make that pathway non-existant and unsafe.

Please take our concerns into consideration, thank you.

-Jordan
