For which application would you like to provide comments? (One form per application)

RZ100707 - Bylaw 9409 (6100 O'Grady Road and 5958 Stringer Crescent) - Meeting Date: June 12, 2023

Comments

Hello I have lived in the CHRP for over 15 years. I am writing as I am concerned for the lively hood of 110 mobile home owners that live in our beautiful park. If this area of 6100 O'Grady road is rezoned as we do not own the land it is to my understanding that we would lose the equity we have been working many years for, we would be faced with the cost of moving our home and finding a new lot or the worst case just walking away with absolutely nothing. For most young home buyers this is a down payment on a house. For the old somewhere to retire. This would cause havoc on our lives. Having high rises looking down into our backyards would be so uncomfortable. Most are in this park because of the privacy we have. But mostly I find this expansion disgusting. Building is driving the wildlife, who were here first (never forget that), away from their land. We already have bear issues (why does CH and ALL of PG not have locking garage cans like most of the hart?! Outrageous, no common sense there at all.) Building will increase those issues as they have nowhere to go. How heartbreaking. I personally have had 3 moose gives birth over the years right in my back yard. We have deer, foxes, coyotes, moose, bears and many birds using this green space as a home or travel path. Please

stop taking away the green spaces and homes from the wildlife. Enough is enough.
Thank you for your time.
