RATES

The following rates and charges, as amended from time to time, will constitute the Rates for Services:

- A. Energy Charge – a charge of \$57.06 per MWh (megawatt hour) of heat energy used from the Heat Exchangers and Meter Set at the Designated Property, with a 5% annual increase;

and

- B. Capacity Charge – a charge per KW (kilowatt) based on individual building’s peak heating load, with a 5% annual increase. A capacity charge can be replaced over the term of the energy agreement by paying a one-time connection fee prior to connection. This one-time connection fee is the net-present value of the estimated capacity charge for the term of the agreement.
