**Subject: Indoor water park**

Dear Mayor and Council,

My name is Drostan and I am 11 years old, and I have lived here my whole life. When we were traveling I really liked the water parks. I think we should build an indoor water park here in Prince George.

If you invest in a indoor water park it can make upwards of \$5M per year. Our newest pool is 37,670 square ft and to make a 50,000 square ft water park it would cost between \$8.35M and \$20M to build. Since there are few indoor water parks in BC, it would attract families to come to Prince George and help our tourism industry. This would mean more people here spending money on hotels, shopping, and food, which would in turn, boost our economy.

This is a good way to boost our economy and tourism. I really like water parks and I think we should build one in Prince George. Thank you for your time and consideration.

Respectfully,  
Drostan De Vere-Marwood
