We would like to give our whole hearted support for Dave and Suzi's plans. We have thought long and hard about the proposal as to whether we could support it. We feel that they are putting a lot of planning and money into a structure that fits their proper and the immediate neighborhood. Obviously one structure in the back which could protect the boat and give other workspace would be the best option,

however the existing structure is of very high quality and tearing it down would not be a good idea. Too many homeowners would just put up a "temporary" tent like structure to save money but these structures are very unattractive to the surrounding homes. We realize that they own a boat and will be keeping it on the property and we want them to have the ability to build an attractive structure.

I acknowledge and agree that my submission, including my full name and address, will be published on the City's website as part of the Council meeting agenda. This information will be part of the official public record, and once published, it cannot be removed or edited. Additionally, my submission may appear in internet search engine results.
