Subject: Agenda item Advisory Committee on Accessibility and Inclusion July 17

I attended the zoom session hosted by Disability Alliance of BC. It was very interesting and informative, time well spent. Multiple members might have attended through an email invite sent to the committee. There were resources available to be shared via their website. Including grants for projects we design, if we do, and training.

Membership options as well, added perks for the committee so I signed us up, under my email address. I made sure the address can be changed to a civic email if we desire to become a member group. Otherwise I'll change the account to mine as an individual if I fail to remain active, after my appointment this term.

Handy Circle Resources Society <http://handycirclepg.ca/>

if you are affected by Multiple Sclerosis in North America, please join our [Peer support Group's Facebook page here](#). If you live in Northern BC, the [Prince George Multiple Sclerosis Self-Help Group has a FB Group here](#). The Calendar reminders for our live meetings, held every 3rd Thursday of the month between September and June, will be posted there to both links.

If you have a business idea or want to build websites, I encourage you to look at the [Business Abilities](#) & [IBDE](#) courses available through [Make a Change Canada](#). All the education provided is accredited through their connection to [Selkirk College](#) in [Nelson BC](#). I am a proud alumnus of both, a collection of my [life now can be found here](#) on my website. Perhaps I can convince you that you need to have a WordPress Blog? If you'd like to skip that part and just buy a site, it's [available right here](#) and I could help you set it up after, perhaps take care of your updates to save your time for what you do best! Thanks for all you do for everyone, every day!
