You don't often get email from **Redacted**

I am writing to disagree with anything more than a single family dwelling going on that lot. I live kitty corner and I don't want to look out my living room and have up to two 3 story homes right there. Is there not an easement on that property like the newer house 7314 Caribou, which has part of the easement on the back corner of their property. We as tax payers should have say in who even buys these older trailers/ homes when certain people/ companies are buying up as much as they can in the area and building god awful homes. We don't need any more huge homes in the area please not let this pass.
