To whom it may concern,

Confirmation of Support for Amended Permit Application

We are writing to inform you that Temporary Use Permit No. TU000106, originally submitted as a temporary use permit, has been revised and resubmitted as a Development Variance Permit to vary Section 5.4.1 a) to allow a Home Business 2 to be located within the existing accessory structure as shown on Exhibit and to vary Section 5.4.1 b) to permit the storage, display or sale of materials or goods related to the home business 2 to be located entirely within the accessory structure. The file has been changed to Development Variance Permit No. VP100706.

Given the change to the application, we are requesting confirmation that your previous indication of support remains valid under the new application type. It should be understood that as the application has been changed to a development variance permit, should council approve the variance the use will be allowed to continue past the 2-year term previously indicated. A revised letter of support has been attached, please complete and submit it via email to [devserv@princegeorge.ca](mailto:devserv@princegeorge.ca) should you support the amended application.

Please provide an indication of your stance at your earliest opportunity. Should you require any additional information regarding the revised application please contact development services by email [devserv@princegeorge.ca](mailto:devserv@princegeorge.ca) or by phone at 250-561-7611.

Dear Mayor and Council,

This letter is in support of Development Variance Permit Application No. VP100706 to permit Susanna and Danie Van Zyl to run a Traditional South African Cured Meat & Sausage making business within their accessory structure at 7699 Lemoyne Drive.

I understand that although it will be like a home based business, they will cure the meat and make sausages in their small shop located at the rear of their property. I also understand that this is only intended to be temporary in nature so that they can see if the business is viable before purchasing a commercial retail space in a different location in the city.

It is my belief that this application will not have a negative impact on the surrounding neighbourhood. The business will be run online with orders being delivered to patrons rather than picked up on site. The process to cure the meat and make the sausage will not have any smell or noise pollution.

This is a great opportunity for my neighbours to grow their business in a controlled manner so that they can eventually move off-site into a more solidified retail space.

Please consider this letter and my signature as my full support and endorsement of the Development Variance Permit.

Address: 7692 Lemoyne Dr.

Dear Mayor and Council,

This letter is in support of the Variance Development Permit (VP100706) to permit Susanna and Danie Van Zyl to run a Traditional South African Cured Meat & Sausage making business on their property located at 7699 Lemoyne Drive.

I understand that they would run the business very similar to the intensity of a home based business, however, the business operations would be located in a small shop at the back of their property. I also understand that this would be an entirely online business with local delivery options so there would be very limited customers actually coming to the property.

I have had the pleasure of being given some of their cured meats and sausages and their passion for this really comes through in the quality of the food. It would be great for them to have an opportunity to expand into a larger commercial retail space, so testing the waters with a home level business model for a few years before expanding seems like the right step to be taking.

I fully support this business and this Variance Permit Application, and I hope that City Council can do the same.

Address: 1425 Ash Street, P.O. V2L1A7.

Dear Mayor and Council,

This letter is in support of the Variance Development Permit (VP100706) to permit Susanna and Danie Van Zyl to run a Traditional South African Cured Meat & Sausage making business on their property located at 7699 Lemoyne Drive.

I understand that they would run the business very similar to the intensity of a home based business, however, the business operations would be located in a small shop at the back of their property. I also understand that this would be an entirely online business with local delivery options so there would be very limited customers actually coming to the property.

I have had the pleasure of being given some of their cured meats and sausages and their passion for this really comes through in the quality of the food. It would be great for them to have an opportunity to expand into a larger commercial retail space, so testing the waters with a home level business model for a few years before expanding seems like the right step to be taking.

I fully support this business and this Variance Permit Application, and I hope that City Council can do the same.

Address: 1455 Orion Rd Prince George BC V2K5G3 Canada
