We are tired of seeing our taxes increase each year by a ridiculous amount. When each years amounts are added up, you can see YOU as a council are hurting the people of this city. As our house prices drop our taxes continue to rise. What's worse is then you find new ways to tax us while you give yourselves raises. I really am ashamed by the behaviour of this council as you put seniors out of home ownership and compare yourselves to cities who have much higher populations in order to justify it. This will not be forgotten come election time. If we have to cut back in our lives to afford to eat and live, what business do you have even thinking about spending on luxuries with our money!

I acknowledge and agree that my submission, including my full name and address, will be published on the City's website as part of the Council meeting agenda. This information will be part of the official public record, and once published, it cannot be removed or edited. Additionally, my

submission may appear in internet search engine results.
