My main concern is that the city continues to make public safety budget decisions without considering what actually works to reduce vandalism and disorder. We have piled more cops and bylaw on the issue, but what we should be doing, and what is so much cheaper, is funding day time facilities and ensuring that unhoused people have a place to go. The Province (with some support from the city) has housed over 500 people in the last couple of years. This more than anything is going to get our city moving on the right track. Please check out Greg Saville and the safe growth approach, which was presented by John Lyons to the public safety committee. It has evidence backed policy proposals that save money for us taxpayers.

I acknowledge and agree that my submission, including my full name and address, will be published on the City's website as part of the Council meeting agenda. This information will be part

of the official public record, and once published, it cannot be removed or edited. Additionally, my submission may appear in internet search engine results.
