Low Carbon Fuels Branch
BC Ministry of Energy and Climate Solutions

Subject: Letter of Support for Tidewater's Application to the LCFS Program

Ms. Kroll,

On behalf of the City of Prince George, I am pleased to provide this letter of support for Tidewater Renewables' application to the Province's Low Carbon Fuel Standard (LCFS) program in relation to their proposed Sustainable Aviation Fuel (SAF) facility.

The LCFS program plays a critical role in advancing British Columbia's climate goals by incentivizing low-carbon solutions that reduce greenhouse gas emissions and growing regional economies. Tidewater's SAF project aligns perfectly with these objectives, offering a sustainable alternative to conventional jet fuel and contributing to the decarbonization of the aviation sector.

Prince George has been actively positioning itself as a hub for low-carbon fuel innovation. Through initiatives such as the Northern BC Hydrogen Hub, the Future Fuels Forum, and our ongoing efforts to attract low-carbon fuel producers and value-chain businesses, we are committed to growing a regional cluster that supports clean energy development. Tidewater's investment represents a cornerstone opportunity in this strategy.

The proposed SAF facility is expected to create hundreds of construction jobs and 60 permanent operations positions, delivering significant economic benefits to our community and the province. Council has previously advocated for Tidewater's efforts to develop this project, complementing their existing renewable diesel facility. Tidewater has been a responsible operator and community member for years, supporting local families and organizations.

We strongly believe that, with their experience to build and operate, Tidewater's SAF project will advance provincial climate objectives, strengthen the low-carbon economy, and reinforce British Columbia's and Prince George's roles as leaders in Canadian sustainable energy. For these reasons, Mayor and Council fully support Tidewater's application to the LCFS program and encourage its approval.

Thank you for your consideration. Should you require any additional information, please do not hesitate to contact our office.

Simon Yu
Mayor
