You don't often get email from [Redacted]. [Learn why this is important](#)

This message is addressed to the Mayor and council. My name is Bradley Kaiser i live 1865 sommerville road. Ive been riding at cranbrook since before my children were born 21 + years now. Over the years many riders with some ability to push their limits a bit further have rode. Have had 2 riders that I know of who competed in the red bull rampage from riding there. It has been a staple of the mountain biking community for over 25 years. Countless man hours of building and maintaining those trails. I have 40 plus hours into 1 feature. Among many more over the years digging by hand. There had been group rides started ive been apart of every week in summer months. These trails have been apart of the freeride mountain biking scene since the north shore vancouver days. Not asking for a funded bike park but the land where the trails are is very steep and alot of valleys in there. All I know is I want to continue to have these trails for the future of our community to ride, future downhill racers to practice. Free riders that will maybe make a living out of it one day. The more outdoors activities and places to do them is the future. I know it isn't going to happen over night but maybe keep the trail network since its been there for so long. Maybe a parking to not congested traffic. Trying to save my local trails I grew up riding in my teens to into my early 40s now.
