To Whom It May Concern,

On behalf of City Council, I am pleased to provide this general letter of support for Northern FanCon Society and its continued delivery and growth of FanCon in Prince George.

Since its inaugural year in 2015, FanCon has developed into a well-established pop culture and creative industries convention that attracts visitors from across Northern British Columbia, Western Canada, and beyond. The event has become a recognized cultural gathering that brings fans, creators, vendors, and industry professionals to Prince George each year.

FanCon contributes positively to the local economy through increased visitation, hotel stays, restaurant activity, and the use of local suppliers and services. It also supports Prince George's profile as a welcoming and inclusive destination for arts, culture, and creative industry activity.

In addition to its economic contribution, FanCon provides opportunities for volunteer engagement, skills development, community participation, and creative collaboration. The event has also supported relationship building within the creative sector, contributing to broader efforts to diversify the local economy, including film and media activity in the region.

The City of Prince George recognizes FanCon as an important part of the community's arts and culture landscape. This letter of support is provided for the purpose of supporting Northern FanCon Society's ongoing funding applications, partnerships, and promotional efforts.

We appreciate the contribution FanCon continues to make to the cultural and economic vitality of Prince George and look forward to the event's continued success.

Sincerely,

Simon Yu
Mayor
