Subject: Letter of Support

Hello Simon,
It was great speaking with you yesterday and I will reach out next week in the hope of connecting with you while you are in Vancouver.

As discussed, I am hoping you would be willing to provide us with a letter of support for our Build Canada Homes submission. I have attached a template for you to review, consider, and modify as you deem appropriate.

I am copying our Chief of Staff, Jon Watson here as well and he can work with you or someone from your team to complete. Thanks again and I look forward to connecting soon.

Regards,
Mark

I am honoured to work on the unceded traditional territories of the xʷməθkʷəy̅əm (Musqueam), Skwxwú7mesh (Squamish) Nations, and səliwəta! (Tsleil-Waututh). At Connective, we do not take lightly the privilege and responsibility of providing culturally appropriate services. We work to integrate the wisdom, expertise and knowledge of Elders, Indigenous Leadership, Knowledge Keepers, Indigenous service users and Indigenous-led community groups in all that we do.

Re: Letter of Support – Connective Support Society Build Canada Homes Portfolio Proposal

To whom it may concern,

On behalf of the City of Prince George, I am pleased to provide this letter of support for the Build Canada Homes portfolio proposal being submitted by Connective Support Society.

Connective has been a valued partner in Prince George, demonstrating a strong commitment to addressing the housing needs of our community. Their work has contributed to expanding access to safe, stable, and supportive housing for individuals who are experiencing or at risk of homelessness. Through their presence in our city, Connective has played an important role in strengthening the local housing continuum and supporting some of our most vulnerable residents.

As communities across British Columbia and Canada continue to face significant housing challenges, we recognize the importance of experienced, community-based organizations like Connective in delivering meaningful and lasting solutions. Their proposed portfolio represents an opportunity to build on the positive impact already seen in Prince George by accelerating the development of new affordable homes and enhancing the range of housing options available in the region.

We are particularly encouraged by Connective's collaborative approach, which brings together government, non-profit organizations, and community partners to advance housing development. Their ability to deliver projects that are responsive to local needs, while maintaining a focus on long-term affordability and sustainability, is critical to communities like ours.

The City of Prince George supports initiatives that increase housing supply and improve outcomes for residents, and we see strong potential in this portfolio to contribute to those goals. We are hopeful that future projects under this initiative will include opportunities to further expand housing across Northern British Columbia, helping to meet growing demand and support the continued well-being of our community.

We appreciate Connective's ongoing commitment to Prince George and their leadership in advancing innovative housing solutions. Subject to the appropriate approvals and processes, we look forward to continued collaboration as these projects move forward.

Sincerely,

Simon Yu

Mayor

City of Prince George
