

Bonnet Eatery Patron Participation Endorsement

The Bonnet Eatery in Blackburn is hoping to be approved by the city council for a Patron Participation Endorsement on our Food Primary Liquor License. This endorsement will allow us to host karaoke. We have been operating our restaurant since September 2017, and have become a valued gathering place in the community. With the addition of this endorsement we hope to further provide the community a safe weekly event to come together for. Our customer base is largely local families who are very happy to have a restaurant close to home. On any given day you will find parents with their young children and teenagers sharing a meal and enjoying a game of billiards, or watching hockey. Many of the local families have become friends as well as customers. We employ many of the neighbourhood teens, and have provided first jobs or summer work. The restaurant is very family oriented. Our management and staff are very aware of liquor and safe consumption rules. We operate on a food primary license and are very focused on providing meals first before alcohol. In addition to the Bonnet Eatery we also operate OM Pizza Bar Cafe (Liquor Primary License) on Ospika, and are currently hosting karaoke every Saturday night. We intend to use the same software at both locations. The Singa karaoke software has a mobile sign in feature allowing guests to add their song to the list without leaving their seat. The benefit of this is that it mitigates crowding and a line up of people, which in turn reduces the chances of confrontation between patrons. This set up creates a much more streamlined karaoke experience very different from a regular bar style karaoke.
