

CITY OF
PRINCE GEORGE

2020 CLIMATE CHANGE MITIGATION PLAN

Council Presentation

May 25th, 2020

The Role of The City of Prince George

- Local governments are responsible for ensuring future generations will not be impacted by decisions made today.
- City's corporate activities account for 1% of community GHG emissions, but have influence over 40% of the community's emissions.

Prince George's History of Climate Change Mitigation Leadership

Stakeholder Engagement

- Multiple Stakeholder Engagement Workshops
- Public Engagement included open houses and an online survey which resulted in 800 responses.

New Targets for Prince George

CORPORATE TARGETS

5% reduction in emissions
from 2017 levels by **2025**

17% reduction in emissions
from 2017 levels by **2030**

50% reduction in emissions
from 2017 levels by **2040**

80% reduction in emissions
from 2017 levels by **2050**

COMMUNITY TARGETS

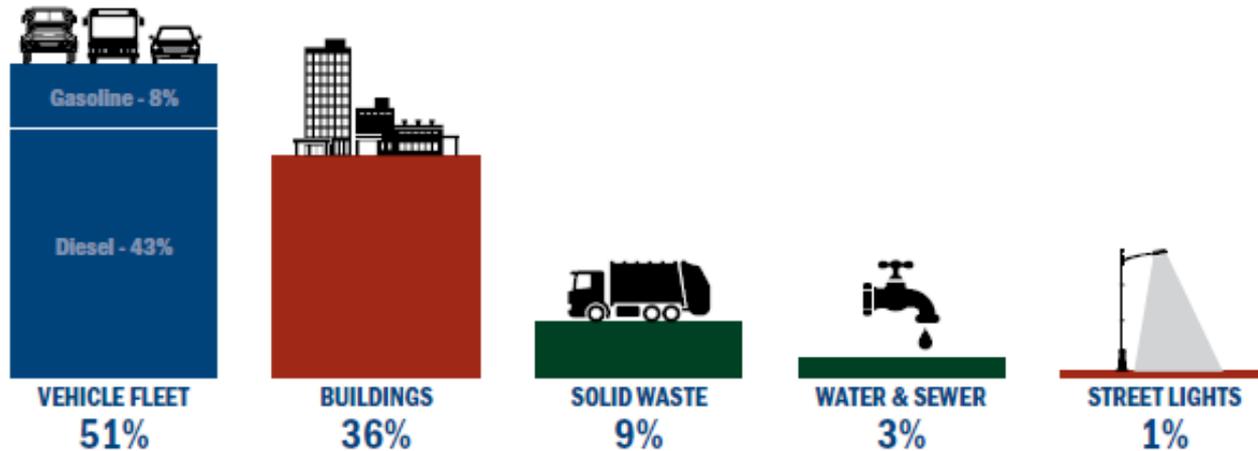

5% reduction in emissions
from 2017 levels by **2025**

12% reduction in emissions
from 2017 levels by **2030**

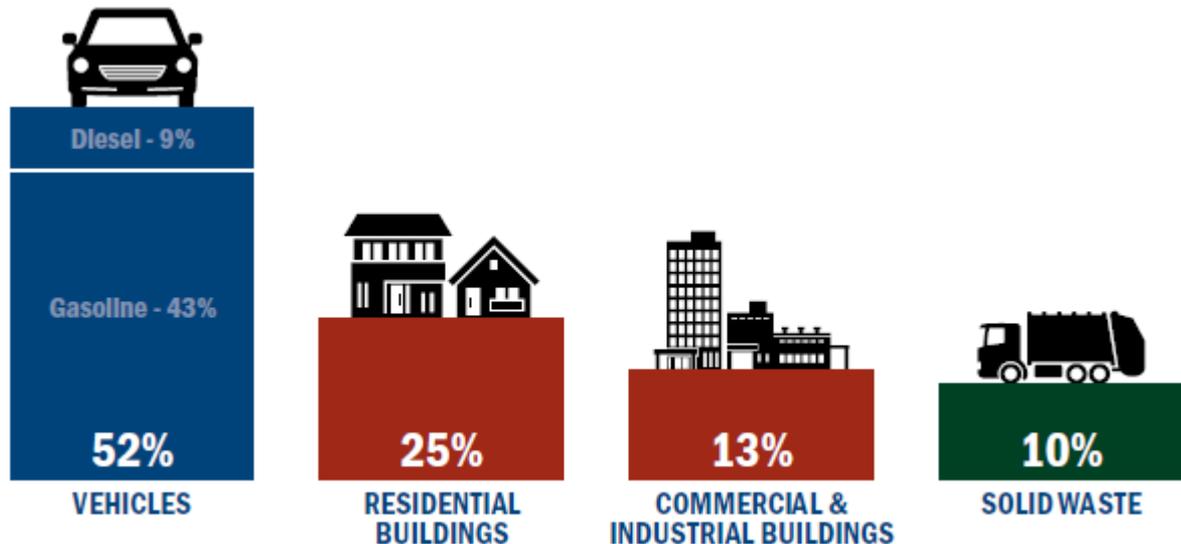

50% reduction in emissions
from 2017 levels by **2040**

80% reduction in emissions
from 2017 levels by **2050**

Where do GHGs come from in PG?

Corporate GHGs: emissions that are directly related to City operations.

Community GHGs: emissions that the City has influence over.

Climate Change Mitigation Actions

- 34 corporate and 35 community actions were identified to implement over the next 5+ years to reduce GHG emissions.
- The actions fall under 6 Focus Areas:
 - Transportation, Land Use, Buildings, Waste, Renewable Energy, and Policy, Decision Making and Reporting.
