To Mayor and Council:

I live on Moriarty Crescent. As you are aware, this is a desirable area, and the City of Prince George recognizes this, by charging a higher rate of City taxes for the privilege of living on this street and in the surrounding cul- de- sacs.

It would be a mistake for the City to allow a marijuana store to set up business there, hidden in the trees. The College Heights Senior Secondary School is extremely handy to that location. That alone should tell the City that this would be the wrong location.

Keep this kind of store where it is very visible, close to other commercial businesses. To hide a marijuana store in the trees of the former Pub is to admit that the City regards this sort of store as an unsavory business, that must be hidden.

I am against allowing the marijuana store to be built in this neighborhood.

Your sincerely,

Marjorie Nevison
