**Subject:** MJB Cannabis Store Rezoning

Dear Mayor and Council,

I wanted to write a quick email in opposition to the rezoning and opening of a second cannabis store in College Heights on Domano Boulevard. I believe that one cannabis dispensary in the College Heights area should be sufficient. Two locations within a couple kilometres of each other seems unnecessary. The location to the high school, CHSS, also seems unfortunate. Although I understand that the dispensary would only sell to legal-aged adults, I also feel that proximity to our under-aged youth only further promotes the idea of cannabis use; in my opinion, I also believe students will find a way to access this resource regardless of the age limit. As a city, I believe we should look at considering developments that are needed, or not found, within a community; there are many other businesses that would be an asset to the college heights area; I believe we should look at promoting a new business or service to the area.

Thank you for your time.
