Attn: Deanne Wasnik
Manager Of Developement Services

I , as being direct neighbour , my back yard to property, am against rezoning of property 7008 Taft Drive.

We purchased this beautiful property for the park like setting in the neighbour hood. We love the trees, I understand a few will come down as they are not safe, but to many would also cause safety concern for the trees left in surrounding property's. Also they act as a sound barrier to the highway and also homes for the birds in area, such as an osprey family.

Also there would be more traffic , crime concern, privacy to my home and the overall of park like setting would be diminished to my yard.

I'm also worried about devaluation of my property.

And the lack of time you gave us to voice our opinions, I received letter yesterday, 24 hour notice, come on

In final I am against rezoning!!!

Thank You for your time
