Subject: Rezoning address 7008 Taft Dr.

To: <cityclerk@princegeorg.ca>

Hi I'm a resident of Taft Dr and have not been contacted on this matter of rezoning. As I understand the residents of the area should be properly consulted on this matter which I have not. The sign was put up about 10 days ago as a blank sheet of plywood with nothing on it, and about 5 days ago the information was placed on it very short notice. As a resident of the street I am concerned about the building of two buildings on one lot as the area is zoned for single dwelling homes and mobiles. We are not interested in having rental properties built on our street as that's what this builder is looking to do. The lot is filled with old growth trees and they would have to be all cut down which would be a shame. It appears that we are being swept under the rug on this matter and we need the proper notice and time to properly address the issue. This builder is well known for building this style of structure with basement suites as rental units, we are concerned about keeping the rental properties out of our quiet and family oriented area. Please reply on this matter ty.
