

To Whom it May Concern

Epik Product Inc is not only being run by some true entrepreneurs and locally minded folk. It is being run with my upmost confidence in a manner benefiting not only our local economy but our citizens as well. Delivering necessary high-quality goods to people in a safe, secure, and hygienic manner.

Dawn Lebel is not only a conscientious leader in our community in any project I have known her to be a part of but a great champion of all the things that make Prince George so great. We would be lucky to have her at the forefront of this growing business for our town.

For Prince George and from Prince George is what makes our local businesses and economy so unique to the north and BC in general.
