To ensure the zoning boundaries are consistent with the proposed property boundaries the Official Community Plan and Zoning Bylaw are being amended.

**POLICY / REGULATORY ANALYSIS:**

**Official Community Plan No. 8383, 2011**

Intent of the Official Community Plan

As identified in Section 1.2 of the Official Community Plan (Intent, Application, and Interpretation): The *Local Government Act* explains that all bylaws enacted or works undertaken by Council after adoption of the Official Community Plan (OCP) must be consistent. An Official Community Plan, however, is not intended to be a static document, but should adapt to new trends within society and respond to changing circumstances. As such, following appropriate public consultation and careful consideration by Council, policies and land use designations in an Official Community Plan may be revised by an amending bylaw pursuant to provisions outlined within the *Local Government Act*.

Schedule B-6: Future Land Use

**9800 Sintich Road**

The subject property is designated as “Rural Resource” as identified in Schedule B-6: Future Land Use of the OCP. This designation includes areas used for agriculture, forestry and resource extraction activities that are important in the long-term health of the regional economy. Through rural designation and policies, the City should provide for development that address a desire for a rural lifestyle (Policy 8.3.111). The OCP also encourages a mix of housing options, and showcasing new housing forms and tenures for residents of the City (Policy 7.5.C. and 7.5.17). In addition to this, the OCP identifies policy, which aims to create a robust and diverse housing stock (Policy 7.5.13). The property owner would like to construct a manufactured home park on the subject property. As indicated above, the OCP supports the inclusion of a mixture of housing forms and tenures to create a robust housing stock.

The 0.15 ha portion of this parcel that is proposed to be added to 9912 Sintich Road needs to be re-designated to “Business District, Service Commercial” to ensure consistency with the commercial zoning and use occurring at 9912 Sintich Road as shown on Appendix “A” to Bylaw no. 9154.

#### **9912 Sintich Road**

The subject property at 9912 Sintich Road is designated as “Business District, Service Commercial” as identified in Schedule B-6: Future Land Use of the OCP. This designation is intended to provide an area primarily for the travelling public-orientated commercial uses in highly accessible locations, including tourist-orientated uses and retailers that are accessed primarily by vehicle. The City shall permit continued commercial use of properties whose current zoning as of the adoption of the bylaw is commercial (Policy 8.3.11).

The 0.15 ha portion of this parcel that is proposed to be added to 9800 Sintich Road needs to be re-designated to “Rural Resource” to ensure consistency with the residential zoning and use occurring at 9800 Sintich Road as shown on Appendix “A” to Bylaw No. 9154.

Administration is supportive of the proposed amendments to facilitate a realignment of the property boundaries and ensure consistency with the zoning boundaries.

#### Schedule B-4: Growth Management Area

The subject properties are both designated as ‘Rural Resource’ in Schedule B-4: Growth Management of the Official Community Plan. This designation includes areas used for agriculture, forestry and resource extraction activities that are important in the long-term health of the regional economy. It also encompasses natural open spaces and environmentally sensitive areas.

The City has recently conducted a servicing upgrade in the area to provide increased capacity. In addition, a Servicing Brief was submitted during the previous Rezoning Applications No. RZ100572 (Bylaw No. 8942) and RZ100575 (Bylaw No. 8903) for the subject properties. The servicing brief was accepted by Administration as a condition of Final Reading of Bylaw No. 8903 and Bylaw no. 8942.

#### **Zoning Bylaw No. 7850, 2007**

##### **9800 Sintich Road**

The subject property is zoned RM9: Manufactured Home Park, with an intent to regulate manufactured home park uses in a rental or a bare land strata format. The 0.15 ha portion of this parcel that is proposed to be added to 9912 Sintich Road needs to be rezoned to C6lc: Highway Commercial to ensure consistency with the commercial uses as shown on Appendix “A” to Bylaw No. 9155.

##### **9912 Sintich Road**

The subject property is zoned C6lc: Highway Commercial, with an intent to provide for uses appropriate for some highway locations. The 0.15 ha portion of this parcel that is proposed to be added to 9800 Sintich Road needs to be rezoned to RM9: Manufactured Home Park to ensure consistency with the manufactured home park use, as shown on Appendix “A” to Bylaw No. 9155.

As indicated previously, the rezoning of the parcels is to facilitate a lot line adjustment between the two subject properties. Administration is supportive of the application as the rezoning is minor in nature (i.e. no new uses are being proposed) and the rezoning is to facilitate a land transfer between the subject properties. When the subdivision is completed, the property boundaries will match the zoning boundaries of RM9: Manufactured Home Park and C6lc: Highway Commercial as shown on Exhibit “A” to RZ100670.

## OTHER CONSIDERATIONS:

### Referrals

This application was referred to internal City divisions and external agencies for comments. There are no outstanding comments or concerns with this application.

### Ministry of Transportation and Infrastructure

As per Section 52 of the *Transportation Act*, Bylaw No. 9155 requires Ministry of Transportation and Infrastructure's approval prior to Final Reading.

### Sequence of Adoption for the Official Community Plan

Pursuant to the *Local Government Act*, City of Prince George Official Community Plan Bylaw No. 8383, 2011 was adopted by considering the Financial Plan, Solid Waste Management Plan and Strategic Framework. Therefore, any amending bylaws to the Official Community Plan must also consider these plans.

Section 477 of the *Local Government Act* identifies the adoption procedures for the development, repeal or amendment to the Official Community Plan bylaw. This sets in motion the following sequence which identifies the *Local Government Act* requirements and the City's own procedures:

1. After a bylaw has been given first reading the following must occur:
  - a) Consideration of the plan in conjunction with the current [Financial Plan](#);
  - b) Consideration of the plan in conjunction with the current [Regional District Solid Waste Management Plan](#);
  - c) Consideration of any other plan and policies that the local government considers relevant (i.e. [Strategic Framework for a Sustainable Prince George](#));
  - d) Referral to the Agricultural Land Commission if the Plan applies to Agricultural Land Reserve land (*not applicable to these applications*);
  - e) Second Reading;
  - f) Public notice of the Public Hearing; and
  - g) Public Hearing.
2. Third Reading of the bylaw
3. Final Reading and Adoption of the bylaw

The *Local Government Act* requires that each reading of the OCP bylaw must receive an affirmative vote of a majority of **all** Council members. The adoption procedures found in Section 477 of the *Local Government Act* are required, and should any changes occur to the bylaw, the sequence of steps would be repeated.

### Statutory Consultation

The Department recommends that Council approve the consultation method outlined in the recommendation section of this Staff Report to Council to provide:

- Two (2) Citywide Newspaper advertisements requesting written comment.

## ALTERNATIVES:

1. Approve the bylaw
2. Approve the bylaw as amended

3. Refuse the bylaw
4. Defer or otherwise deal with the bylaw

Administration recommends that Bylaw No. 9154, 2020 and Bylaw No. 9155, 2020 be approved.

**SUMMARY AND CONCLUSION:**

The applicant would like to amend the Official Community Plan as shown on Appendix "A" to Bylaw No. 9154, and rezone as shown on Appendix "A" to Bylaw No. 9155. The rezoning is required to facilitate a subdivision application that will adjust the property lot lines between the subject properties as shown on Exhibit "A" to RZ100670. Administration is supportive of this application based on the rationale provided in this report.
