Subject: Development Variance Permit Application No. VP100576
Date: Tuesday, December 01, 2020 8:30:42 AM

This email originated from outside the organization. Do not click on links or open attachments unless you recognize and trust the sender and know the content is safe.

To whom it may concern:

We are owners at the complex adjacent to this property where the application for the variance is applied for. Unit **Red**2911 Ferry Ave

We are in disagreement with the application to reduce the distance of any parking area from any window of any habitable room in apartment housing from 5.2 m to 2.1 m.

Common sense would tell us that this is a health and safety issue.

We would like the following question answered:

Who will be held responsible if an accident or emissions of exhaust should occur should the variance application be approved?

Thank you,
Lorraine Hunter and Guy Boudreau
