To Mayor and Council

I wonder where all these vehicles are going to be parking if you decide to put this monster building on Zelkwas ave .

As it is now Krell staff are renting the parking lot from the Church to park in the lot.

In the past when the Church held a funeral or Wedding there was no place to park along Union or Zelkwas ave.

The Church also has AA &NA meeting during the week. They also have a hard time finding parking.

There are no sidewalks on these streets, and having to walk around parked vehicles makes it dangerous for the pedestrians.

Mayor and Council please think about this before making a decision

Thank you

Barb
